Version:

Update Date: 3/24/2022 3:43 PM

Lead Department: City Manager **Action Officer:** David Orr, City Manager
Subject: Joint Resolution No. 2022-007 ending all historical water arbitration issues between Texarkana, Texas, and Texarkana, Arkansas.

Briefing: 3/28/2022 **Public Hearing:** **Council Vote:** 3/28/2022

Item Schedule

Schedule 2: Brief once - vote once (two weeks)

Updates/History of Briefing:

The federal court opinion and order issued July 6, 2012, ordered certain disputes to arbitration and also ruled that certain disputes were not arbitrable.

The issues ordered to arbitration included a dispute raised by Texarkana, Arkansas, that the sale and distribution of treated water from Millwood Reservoir to Texas users outside the City of Texarkana, Texas, did not have the approval of the City of Texarkana, Arkansas and Southwest Arkansas Water District.

The court also ordered to arbitration the corresponding dispute from Texarkana, Texas, that the Millwood contract provided for title to water purchased under the contract passing to Texarkana, Texas, at the point of delivery, and that the dispute of Texarkana, Arkansas, restricts the title to water purchased and delivered under the contract.

Other disputes ordered to arbitration include overpayments made by Texarkana, Texas on share of bonded indebtedness under the Millwood contract and overpayments on funding allocations for fiscal years 2001 through 2009.

Executive Summary and Background Information:

Proposed Joint Resolution Ending Disputes

- Texarkana, Texas acknowledges that the treated water systems of the two Cities are interconnected; water from the Millwood Reservoir has been and continues to be necessarily and inextricably commingled with water from Lake Wright Patman and sold to all purchasers, including municipalities, who have contracted with either Texarkana, Arkansas, or Texarkana, Texas.
- Texarkana, Arkansas, reaffirms its express approval for cities and customers currently being served by Texarkana, Texas, to also receive treated water from Millwood Reservoir under the Millwood contract, and reaffirms that title to all supplied water purchased by Texarkana, Texas, under the Millwood contract passes to Texarkana, Texas, at the point of delivery.
- Both cities declare that the joint resolution ends all disputes ordered to arbitration.

City of Texarkana, Texas

- This resolution also commends the Cities' respective city managers for their collaborative consultation on matters of bi-city public welfare and interest and directs them to develop both short-term and long-term bi-city goals on all matters pertaining to water.

Executive Summary and Background Information:

This is a request by Keri Hawkins, owner, and Kimberly Holmes, agent to rezone an approximate 3.3-acre tract of land (being Tract 143A), in the J. W. Johnson HRS, A-308, located at 804 Jameson Street from Single Family-2 to Single Family-3. The property is currently vacant land. The proposed use is a double wide HUD code manufactured home.

The adjacent zoning is Single Family-2 to the north, south, east, and west. The adjacent land use is vacant land to the north, south, east, and west.

The City's Zoning Ordinance was amended to comply with the state law in 2002, requiring that all manufactured housing be HUD code building standard. This amendment also stipulated that all HUD code manufactured homes inside the city limits be placed in the Single Family-3 (SF-3) zoning district along with the approval of a Specific Use Permit.

There are several lots in this area that are zoned SF-3. HUD code double wide manufactured housing looks like some of the existing frame pier and beam houses in the area. This type housing could also be a revitalization housing alternative to traditional site-built homes. Therefore, staff recommends for approval of this request.

The applicant should also be aware that if this zoning change is approved, all other applicable city code/ordinance requirements must be met including but not limited to building codes, setbacks, subdivision, fire, parking, drainage, water and sewer prior to the issuance of building permits.

Executive Summary and Background Information:

The Department of Transportation (DOT) released a Notice of Funding Opportunity in January 2022 for funding assistance through Rebuilding American Infrastructure with Sustainability and Equity, or RAISE Discretionary Grant program, under the Bipartisan Infrastructure Law.

This provides a unique opportunity for the DOT to invest in road, rail, transit and port projects that promise to achieve national objectives. The eligibility requirements of RAISE allow project sponsors at the State and local levels to obtain funding for multi-modal, multi-jurisdictional projects that are more difficult to support through traditional DOT programs.

Rural areas (population of less than 200,000) can apply for up to \$25,000,000 with no match requirements.

Potential Options:

- Approve
- Deny

Fiscal Implications:

The total project Estimate: \$51,548,907.58

Grant request: an amount not to exceed \$22,000,000

More than half the estimated total will be covered by the MPO, as well as TxDOT and ARDOT.

Executive Summary and Background Information:

Attached as part of this item is a letter from Rebecca Wells, PE, District Traffic Engineer for the Atlanta District of the Texas Department of Transportation (TxDOT). As per this letter, TxDOT has performed an engineering study and traffic survey on US HWY 59-71 (North State Line Ave). The results of this study indicate that the appropriate maximum speed limits for US HWY 59-71 (North State Line Ave) need to be adjusted. The results of the engineering study above for US HWY 59-71 in Texarkana reveals the following speed zones:

- The existing 45 mph speed limit near IH-30 will be lowered to 40mph and extend further north.
- Coming into Texarkana, Texas, a 65 mph speed zone will be created near the northern end of North State Line Avenue.

These speed limit adjustments are for the southbound direction of traffic entering into Texarkana, Texas. Speed limit changes to the northbound direction of traffic will be enacted by an ordinance created by the City of Texarkana, Arkansas.

Subject: Speed Zoning

Honorable Bob Bruggeman, Mayor
City of Texarkana
P.O. Box 1967
Texarkana, Texas 75504

Dear Mayor Bruggeman,

With reference to a recent engineering study and traffic survey conducted by the Texas Department of Transportation, the appropriate speed zones on US 59/71 have been determined. An expedient reply is requested on passage of the city ordinance in order that the speed zones may be in compliance with state traffic law.

The method Texas Department of Transportation uses to set speed limits is a standard used throughout the country. The speed study method is known as the 85th percentile.

The results of the engineering study above for US 59/71 in Texarkana reveals the following speed zones:

- Lower the existing 45 mph speed limit near IH 30 to 40 mph and extend farther north.
- Create a 65 mph speed zone coming into Texarkana on the north end.

Attached are two copies of a strip map for US 59/71, marked "Exhibit A" with a city ordinance. Please return one strip map and a copy of the city ordinance to our office after adoption by the city.

If we can be of any assistance in reviewing these proposals, please feel free to call myself at 903-799-1482 or Jamie Barnes of this office at 903-799-1484.

WHEREAS, the governing body of the Local Government has approved entering into this Agreement by resolution or ordinance dated {enter date of resolution}, which is attached to and made a part of this Agreement as Attachment C, Resolution or Ordinance. A map showing the Project location appears in Attachment A, Project Location Map, which is attached to and made a part of this Agreement, and

NOW, THEREFORE, the State and the Local Government agree as follows:

AGREEMENT

1. Period of Agreement and Performance

- A. Period of Agreement. This Agreement becomes effective when signed by the last party whose signing makes the Agreement fully executed. This Agreement shall remain in effect until terminated as provided below.
- B. Period of Performance.
 1. The Performance Period for each phase of work begins on the date specified in the Federal Project Authorization and Agreement (FPAA) for that phase of work. Local Government may not begin work until issued the State Letter of Authority (SLOA) for that phase of work.
 2. The Performance Period for each phase of work ends on the date specified in the FPAA for that phase of work.

2. Scope of Work and Use of Project

- A. The scope of work for Project consists of constructing sidewalks and bike lanes in the City of Texarkana along both sides of College Drive from Robison Road to US 71 (Stateline Avenue).
- B. Any project changes proposed must be submitted in writing by Local Government to State. Substantive changes may also require an amendment to this Agreement and the approval of the FHWA, State, MPO, or the Commission. Any changes undertaken without written approval and amendment of this Agreement may jeopardize not only the federal funding for the changes, but the federal funding of the entire Project.

3. Project Sources and Uses of Funds

The total estimated development cost of the Project is shown in Attachment B, Project Budget Estimate and Source of Funds (Attachment B).

- A. If Local Government will perform any work under this Agreement for which reimbursement will be provided by or through the State, the Local Government must complete training. If federal funds are being used, the training must be completed before federal spending authority is obligated. Training is complete when at least one individual who is working actively and directly on the Project successfully completes and receives a certificate for the course entitled "Local Government Project Procedures

and Qualification for the Texas Department of Transportation” and retains qualification in accordance with applicable TxDOT procedures. Upon request, Local Government shall provide the certificate of qualification to State. The individual who receives the training certificate may be an employee of Local Government or an employee of a firm that has been contracted by Local Government to perform oversight of the Project. State in its discretion may deny reimbursement if Local Government has not continuously designated in writing a qualified individual to work actively on or to directly oversee the Project.

- B. The total estimated project cost as shown in Attachment B includes the Local Government's estimated itemized cost of real property, utilities, environmental assessments, construction, and other construction related costs. To be eligible for reimbursement or as in-kind contribution, costs must have been included in the nomination form approved by the Texas Transportation Commission or MPO in consultation with State. Local Government must submit to State evidence of payment for eligible in-kind costs at least once per calendar quarter using the State's In-Kind Match Reporting form.
- C. State and the Federal Government will not reimburse Local Government for any work performed outside the Performance Period. After federal funds have been obligated, State will send to Local Government a copy of the formal documentation showing the obligation of funds including federal award information. Local Government is responsible for 100 percent of the cost of any work performed under its direction or control before the federal spending authority is formally obligated.
- D. The Project budget and source of funds estimate based on the budget provided in the application is included in Attachment B. Attachment B shows the percentage and estimated dollar amounts to be contributed to Project by state and local sources, as well as the maximum amount in federal TASA funds assigned by the Commission or MPO in consultation with State. This Agreement may be amended from time to time as required to meet the funding commitments based on revisions to the TASA, FPAA, or other federal documents.
- E. State will be responsible for securing the federal share of funding required for the development and construction of Project, in an amount not to exceed 80 percent of the actual cost of the work up to the amount of funds approved for Project by the Texas Transportation Commission or MPO in consultation with State. Federal funds will be reimbursed on a cost basis. Project costs incurred prior to issuance of the SLOA are not eligible for reimbursement.
- F. The Local Government will be responsible for all non-federal or non-State participation costs associated with the Project, unless otherwise provided for in this Agreement or approved otherwise in an amendment to this Agreement. For items of work subject to specified percentage funding, the Local Government shall only in those instances be responsible for all Project costs that are greater than the maximum State and federal participation specified in Attachment B and for overruns in excess of the amount specified in Attachment B to be paid by the Local Government. If the Project was State-selected, the State may apply a portion of any excess program funds to cover all or a portion of any overrun based on criteria provided by 43 Tex. Admin. Code §11.411(d).

- G. The budget in Attachment B will clearly state all items subject to fixed price funding, specified percentage funding, and the periodic payment schedule, when periodic payments have been approved by the State.
- H. When fixed price funding is used, the Local Government is responsible for the fixed price amount specified in Attachment B. Fixed prices are not subject to adjustment unless (1) differing site conditions are encountered; (2) further definition of the Local Government's requested scope of work identifies greatly differing costs from those estimated; (3) work requested by the Local Government is determined to be ineligible for federal participation; or (4) the adjustment is mutually agreed to by the State and the Local Government.
- I. Following execution of this Agreement, but prior to the performance of any plan review work by State, Local Government will pay to State the amount specified in Attachment B for plan review. At least 60 days prior to the date set for receipt of the construction bids, Local Government shall remit its remaining local match as specified in Attachment B for State's estimated construction oversight and construction cost.
- J. In the event State determines that additional funding is required by Local Government at any time during Project, State will notify Local Government in writing. Local Government is responsible for the percentage of the authorized Project cost shown in Attachment B and 100 percent of any overruns above the federally authorized amount. Local Government will make payment to State within 30 days from receipt of State's written notification.
- K. Whenever funds are paid by Local Government to State under this Agreement, Local Government will remit a warrant made payable to the "Texas Department of Transportation". The warrant will be deposited by State and managed by State. Funds may only be applied by State to Project.
- L. Upon completion of Project, State will perform a final accounting of Project costs. Any funds due to Local Government, State, or the Federal Government will be promptly paid by the owing party.
- M. In the event Project is not completed, State may seek reimbursement from Local Government of the expended federal funds. Local Government will remit the required funds to State within 60 days from receipt of State's notification.
- N. If any existing or future local ordinances, commissioners court orders, rules, policies, or other directives, including but not limited to outdoor advertising billboards and storm water drainage facility requirements, are more restrictive than state or federal regulations, or if any other locally proposed changes, including but not limited to plats or re-plats, result in increased costs, then any increased costs associated with the ordinances or changes will be paid by Local Government. The cost of providing right of way acquired by State shall mean the total expenses in acquiring the property interests through negotiations, including, but not limited to, expenses related to relocation, removal, and adjustment of eligible utilities.
- O. The state auditor may conduct an audit or investigation of any entity receiving funds from the State directly under the Agreement or indirectly through a contract or subcontract under the Agreement. Acceptance of funds directly under the Agreement or indirectly through a contract or subcontract under this Agreement acts as acceptance of the authority of the state auditor, under the direction of the legislative audit committee, to conduct an audit or investigation in connection with those funds. entity that is the subject of an audit or investigation must provide the state auditor with access to any information the state auditor considers relevant to the investigation or audit.

- P. State will not pay interest on any funds provided by Local Government.
- Q. State will not execute the contract for the construction of Project until the required funding has been made available by Local Government in accordance with this Agreement.
- R. Local Government is authorized to submit requests for reimbursement by submitting the original of an itemized invoice in a form and containing all items required by State no more frequently than monthly, and no later than 90 days after costs are incurred. If Local Government submits invoices more than 90 days after the costs are incurred, and if federal funding is reduced as a result, State shall have no responsibility to reimburse Local Government for those costs.
- S. If Local government is an Economically Disadvantaged County (EDC) and if State has approved adjustments to the standard financing arrangement, this agreement reflects those adjustments.

4. Termination of the Agreement

- A. This Agreement may be terminated by any of the following conditions:
 - 1. By mutual written consent and agreement of all parties;
 - 2. By any party with 90 days written notice; or
 - 3. By either party, upon the failure of the other party to fulfill the obligations as set forth in this Agreement. Any cost incurred due to such breach of contract shall be paid by the breaching party.
- B. If the potential termination of this Agreement is due to the failure of Local Government to fulfill its contractual obligations, State will notify Local Government that possible breach of contract has occurred. Local Government should make every effort to remedy the breach within a period mutually agreed upon by both parties.
- C. The Agreement may be terminated by the State because the parties are not able to execute a mutually agreeable amendment when the costs for Local Government requested items increase significantly due to differing site conditions, determination that Local government requested work is ineligible for federal or state cost participation, or a more thorough definition of the Local Government's proposed work scope identifies greatly differing costs from those estimated. The State will reimburse Local Government remaining funds to the Local Government within ninety (90) days of termination;
- D. If Local Government withdraws from Project after this Agreement is executed, Local Government shall be responsible for all direct and indirect Project costs as identified by the State's cost accounting system and with 2 CFR Part 200 recapture requirements.
- E. A project may be eliminated from the program as outlined below. If Project is eliminated for any of these reasons, this Agreement will be appropriately terminated. A project may be eliminated from the program, and this Agreement terminated, if:
 - 1. Local Government fails to satisfy any requirements of the program rules cited in 43 Texas Administrative Code, Part 1, Chapter 11, Subchapter G, §§11.400 – 11.418.

2. The implementation of Project would involve significant deviation from the activities proposed in the nomination form and approved by the Texas Transportation Commission or MPO in consultation with State.
 3. Local Government withdraws from participation in Project.
 4. State determines that federal funding may be lost due to Project not being implemented and completed.

At the State's discretion, State may reimburse Local Government for minor, incidental utility adjustments that are identified during the preliminary engineering phase if they are eligible for federal reimbursement. Local Government must obtain advance approval for any variance from established procedures. Before a construction contract is let, Local Government shall provide, at State's request, a certification stating that Local Government has completed the adjustment of all utilities that must be adjusted before construction begins. This same percentage of reimbursement also applies to any amount of profit that may be derived from the conveyance of the property, as applicable.

The tabulations must list the parcel numbers, ownership, acreage, and recommended compensation. The tabulation must be accompanied by an explanation to support the estimated values, together with a copy of the documentation and reports used in calculating each parcel's value. Expenses incurred by Local Government in performing this work may be eligible for reimbursement after Local Government has received written authorization by State to proceed with determination of real property values. State will review the data submitted and will base its reimbursement for parcel acquisitions on these in determining the fair market values. Local Government will not be reimbursed for right-of-way costs on state-selected projects.
- G. For State-selected TASA projects, Local Government shall not use eminent domain or condemnation to acquire real property for this TASA Project.
- H. The separate agreement between Local Government and the current property owner must establish that Project will be dedicated for public use for a period of time not less than ten years after project completion and commensurate with the federal investment. The separate agreement must define the responsibilities of the parties as to the use of the real property and operation and maintenance of Project after completion. The separate agreement must be approved by State prior to its execution and a copy of the executed separate agreement shall be provided to State.

This coverage shall be maintained until all work on State right of way is complete. If coverage is not maintained, all work on State right of way shall cease immediately, and State may recover damages and all costs of completing the work.

NOW, THEREFORE, the State and the Local Government agree as follows:

AGREEMENT

1. Period of Agreement and Performance

- A. Period of Agreement. This Agreement becomes effective when signed by the last party whose signing makes the Agreement fully executed. This Agreement shall remain in effect until terminated as provided below.
- B. Period of Performance.
 1. The Performance Period for each phase of work begins on the date specified in the Federal Project Authorization and Agreement (FPAA) for that phase of work. Local Government may not begin work until issued the State Letter of Authority (SLOA) for that phase of work.
 2. The Performance Period for each phase of work ends on the date specified in the FPAA for that phase of work.

2. Scope of Work and Use of Project

- A. The scope of work for Project consists of constructing sidewalks for a distance of 3.25 miles in Texarkana along N. Robison Road to include crosswalks and improvements to multiple existing signals and installation of sidewalks along W. 15th street to Theron Jones Elementary School and along Milam Street from 13th Street to 15th Street..
- B. Any project changes proposed must be submitted in writing by Local Government to State. Any changes undertaken without written approval and amendment of this Agreement may jeopardize not only the federal funding for the changes, but the federal funding of the entire Project.

3. Project Sources and Uses of Funds

The total estimated development cost of the Project is shown in Attachment B, Project Budget Estimate and Source of Funds (Attachment B).

- A. If Local Government will perform any work under this Agreement for which reimbursement will be provided by or through the State, the Local Government must complete training. Upon request, Local Government shall provide the certificate of qualification to State. The individual who receives the training certificate may be an employee of Local Government or an employee of a firm that has been contracted by Local Government to perform oversight of the Project. - B. The total estimated project cost as shown in Attachment B includes the Local Government’s estimated itemized cost of real property, utilities, environmental assessments, construction, and other construction related costs. - D. The Project budget and source of funds estimate based on the budget provided in the application is included in Attachment B. Attachment B shows the percentage and estimated dollar amounts to be contributed to Project by state and local sources, as well as the maximum amount in federal TASA funds assigned by the Commission or MPO in consultation with State. This Agreement may be amended from time to time as required to meet the funding commitments based on revisions to the TASA, FPAA, or other federal documents.
- E. State will be responsible for securing the federal share of funding required for the development and construction of Project, in an amount not to exceed 80 percent of the actual cost of the work up to the amount of funds approved for Project by the Texas Transportation Commission or MPO in consultation with State. - F. The Local Government will be responsible for all non-federal or non-State participation costs associated with the Project, unless otherwise provided for in this Agreement or approved otherwise in an amendment to this Agreement. For items of work subject to specified percentage funding, the Local Government shall only in those instances be responsible for all Project costs that are greater than the maximum State and federal participation specified in Attachment B and for overruns in excess of the amount specified in Attachment B to be paid by the Local Government. If the Project was State-selected, the State may apply a portion of any excess program funds to cover all or a portion of any overrun based on criteria provided by 43 Tex. Admin. Code §11.411(d).

- G. The budget in Attachment B will clearly state all items subject to fixed price funding, specified percentage funding, and the periodic payment schedule, when periodic payments have been approved by the State.
- H. When fixed price funding is used, the Local Government is responsible for the fixed price amount specified in Attachment B. Fixed prices are not subject to adjustment unless (1) differing site conditions are encountered; (2) further definition of the Local Government's requested scope of work identifies greatly differing costs from those estimated; (3) work requested by the Local Government is determined to be ineligible for federal participation; or (4) the adjustment is mutually agreed to by the State and the Local Government.
- I. Following execution of this Agreement, but prior to the performance of any plan review work by State, Local Government will pay to State the amount specified in Attachment B for plan review. At least 60 days prior to the date set for receipt of the construction bids, Local Government shall remit its remaining local match as specified in Attachment B for State's estimated construction oversight and construction cost.
- J. In the event State determines that additional funding is required by Local Government at any time during Project, State will notify Local Government in writing. Local Government is responsible for the percentage of the authorized Project cost shown in Attachment B and 100 percent of any overruns above the federally authorized amount. Local Government will make payment to State within 30 days from receipt of State's written notification.
- K. Whenever funds are paid by Local Government to State under this Agreement, Local Government will remit a warrant made payable to the "Texas Department of Transportation". The warrant will be deposited by State and managed by State. Funds may only be applied by State to Project.
- L. Upon completion of Project, State will perform a final accounting of Project costs. Any funds due to Local Government, State, or the Federal Government will be promptly paid by the owing party.
- M. In the event Project is not completed, State may seek reimbursement from Local Government of the expended federal funds. Local Government will remit the required funds to State within 60 days from receipt of State's notification.
- N. If any existing or future local ordinances, commissioners court orders, rules, policies, or other directives, including but not limited to outdoor advertising billboards and storm water drainage facility requirements, are more restrictive than state or federal regulations, or if any other locally proposed changes, including but not limited to plats or re-plats, result in increased costs, then any increased costs associated with the ordinances or changes will be paid by Local Government. The cost of providing right of way acquired by State shall mean the total expenses in acquiring the property interests through negotiations, including, but not limited to, expenses related to relocation, removal, and adjustment of eligible utilities.
- O. The state auditor may conduct an audit or investigation of any entity receiving funds from the State directly under the Agreement or indirectly through a contract or subcontract under the Agreement. Acceptance of funds directly under the Agreement or indirectly through a contract or subcontract under this Agreement acts as acceptance of the authority of the state auditor, under the direction of the legislative audit committee, to conduct an audit or investigation in connection with those funds. entity that is the subject of an audit or investigation must provide the state auditor with access to any information the state auditor considers relevant to the investigation or audit.

- P. State will not pay interest on any funds provided by Local Government.
- Q. State will not execute the contract for the construction of Project until the required funding has been made available by Local Government in accordance with this Agreement.
- R. Local Government is authorized to submit requests for reimbursement by submitting the original of an itemized invoice in a form and containing all items required by State no more frequently than monthly, and no later than 90 days after costs are incurred. If Local Government submits invoices more than 90 days after the costs are incurred, and if federal funding is reduced as a result, State shall have no responsibility to reimburse Local Government for those costs.
- S. If Local government is an Economically Disadvantaged County (EDC) and if State has approved adjustments to the standard financing arrangement, this agreement reflects those adjustments.

4. Termination of the Agreement

- A. This Agreement may be terminated by any of the following conditions:
 - 1. By mutual written consent and agreement of all parties;
 - 2. By any party with 90 days written notice; or
 - 3. By either party, upon the failure of the other party to fulfill the obligations as set forth in this Agreement. Any cost incurred due to such breach of contract shall be paid by the breaching party.
- B. If the potential termination of this Agreement is due to the failure of Local Government to fulfill its contractual obligations, State will notify Local Government that possible breach of contract has occurred. Local Government should make every effort to remedy the breach within a period mutually agreed upon by both parties.
- C. The Agreement may be terminated by the State because the parties are not able to execute a mutually agreeable amendment when the costs for Local Government requested items increase significantly due to differing site conditions, determination that Local government requested work is ineligible for federal or state cost participation, or a more thorough definition of the Local Government's proposed work scope identifies greatly differing costs from those estimated. The State will reimburse Local Government remaining funds to the Local Government within ninety (90) days of termination;
- D. If Local Government withdraws from Project after this Agreement is executed, Local Government shall be responsible for all direct and indirect Project costs as identified by the State's cost accounting system and with 2 CFR Part 200 recapture requirements.
- E. A project may be eliminated from the program as outlined below. If Project is eliminated for any of these reasons, this Agreement will be appropriately terminated. A project may be eliminated from the program, and this Agreement terminated, if:
 - 1. Local Government fails to satisfy any requirements of the program rules cited in 43 Texas Administrative Code, Part 1, Chapter 11, Subchapter G, §§11.400 – 11.418.

2. The implementation of Project would involve significant deviation from the activities proposed in the nomination form and approved by the Texas Transportation Commission or MPO in consultation with State.
 3. Local Government withdraws from participation in Project.
 4. State determines that federal funding may be lost due to Project not being implemented and completed.
 5. Funds are not appropriated, in which case this Agreement shall be terminated immediately with no liability to either party. Payment under this Agreement beyond the current fiscal biennium is subject to availability of appropriated funds.
 6. A construction contract has not been awarded or construction has not been initiated within three years after the date that the Commission or MPO selected the project or by a letting date determined by the state and agreed to by the Local Government.
 7. Local Government fails to attend progress meetings at least twice yearly, as scheduled by State.
- F. State, at its sole discretion, may terminate this Agreement if State does not receive project invoice from Local Government within 270 days of FPAA.

5. Amendments

This Agreement may be amended due to changes in the work, the amount of funding required to complete Project, or the responsibilities of the parties. Such amendment must be made through a mutually agreed upon, written amendment that is executed by the parties.

6. Remedies

This Agreement shall not be considered as specifying the exclusive remedy for any agreement default, but all remedies existing at law and in equity may be availed of by either party to this Agreement and shall be cumulative.

7. Utilities

Local Government shall be responsible for the adjustment, removal, or relocation of utilities or utility facilities in accordance with applicable State laws, regulations, rules, policies, and procedures, including any cost to State of a delay resulting from Local Government's failure to ensure that utilities or utility facilities are adjusted, removed, or relocated before the scheduled beginning of construction. At the State's discretion, State may reimburse Local Government for minor, incidental utility adjustments that are identified during the preliminary engineering phase if they are eligible for federal reimbursement. Local Government must obtain advance approval for any variance from established procedures. Before a construction contract is let, Local Government shall provide, at State's request, a certification stating that Local Government has completed the adjustment of all utilities that must be adjusted before construction begins. Additional utility work may be required due to unknown conditions discovered during construction. These costs may be eligible for TASA participation if the following conditions are met: (1) the activity is required to complete Project; (2) the cost is incidental to Project; and (3) TASA funding is available. Any change orders must be approved by State prior to incurring any cost for which reimbursement is sought.

Development of Project must comply with the National Environmental Policy Act and the National Historic Preservation Act of 1966, which require environmental clearance of federal-aid projects.

- A. The **State** is responsible for the identification and assessment of any environmental problems associated with the development of Project.
- B. Local Government is responsible for the cost of any environmental problem's mitigation and remediation. These costs will not be reimbursed or credited towards Local Government's financial share of Project unless specified in the nomination form and approved by State or MPO in consultation with State.
- C. Local Government is responsible for providing any public meetings or public hearings required for development of the environmental assessment, including any public hearing requirements that may be necessary when adding a bike lane.
- D. Before the advertisement for bids, Local Government shall provide to State written documentation from the appropriate regulatory agency or agencies that all environmental clearances have been obtained.

9. Compliance with Accessibility Standards

All parties to this Agreement shall ensure that the plans for and the construction of all projects subject to this Agreement are in compliance with standards issued or approved by the Texas Department of Licensing and Regulation (TDLR) as meeting or consistent with minimum accessibility requirements of the Americans with Disabilities Act (P.L. 101-336) (ADA).

10. Architectural and Engineering Services

- A. Architectural and engineering services for preliminary engineering will be provided by the **Local Government**. In procuring professional services, the parties to this Agreement must comply with federal requirements cited in 23 CFR Part 172 if Project is federally funded and Local Government will be seeking reimbursement for these services or if these services will be used as in-kind contributions; and with Texas Government Code Subchapter 2254.A., in all cases. Professional services contracts for federally funded projects must conform to federal requirements. For State-selected projects, architectural and engineering services are not eligible for TASA reimbursement.
- B. The architectural contract documents shall be developed in accordance with the standards of the American Institute of Architects, the U.S. Secretary of the Interior's Standards for Historic Preservation Projects, Standards and Guidelines for Archeology and Historic Preservation, the National Register Bulletin Number 36: Guidelines for Evaluating and Registering Historical Archeological Sites and in consultation with the State Historic Preservation Officer, as applicable. Bridges (latest edition) as applicable. All contract procurement procedures and documents must adhere to the applicable requirements established in the Standard Specifications for Construction and Maintenance of Highways, Streets and Bridges. The use of other systems of specifications shall be approved by State in writing in advance.

- C. When architectural and engineering services are provided by or through Local Government, Local Government shall submit any plans it has completed to State for review and approval on an agreed upon schedule. Local Government may also submit the plans to State for review any time prior to completion. Local Government shall make the necessary revisions determined by State. Local Government will not let the construction contract until all required plans have received State approval.
- D. When architectural and engineering services are provided by or through State, then the State is responsible for the delivery and performance of any required architectural or preliminary engineering work. Local Government may review and comment on the work, including any proposed changes to the scope of work, as required to accomplish Project purposes. State will cooperate with Local Government in accomplishing these Project purposes to the degree permitted by state and federal law.

11. Construction Responsibilities

- A. The **State** shall advertise for construction bids, issue bid proposals, receive and tabulate the bids, and award and administer the contract for construction of Project. Administration of the contract includes the responsibility for construction engineering and for issuance of any change orders, supplemental agreements, amendments, or additional work orders that may become necessary subsequent to the award of the construction contract. To ensure federal funding eligibility, projects must be authorized by State prior to advertising for construction.
- B. All contract letting and award procedures must be approved by State prior to letting and award of the construction contract, whether the construction contract is awarded by State or by Local Government.
- C. All contract change order review and approval procedures must be approved by State prior to start of construction.
- D. If the Local Government is the responsible party, the State must review and approve change orders.
- E. Upon completion of Project, the party constructing Project will issue and sign a "Notification of Completion" acknowledging Project's construction completion.
- F. For federally funded contracts, the parties to this Agreement will comply with federal construction requirements provided in 23 CFR Parts 633 and 635 and shall include the latest version of Form "FHWA-1273" in the contract bidding documents. If force account work will be performed, a finding of cost effectiveness shall be made in compliance with 23 CFR Subpart 635.B.
- G. Any field changes, supplemental agreements, or revisions to the design plans that may occur after the construction contract is awarded will be mutually agreed to by State and Local Government prior to authorizing the contractor to perform the work. Prior to completion of Project, the party responsible for construction will notify the other party to this Agreement of the anticipated completion date. All parties will be afforded the

12. Project Maintenance

- A. Upon completion of Project, Local Government will be responsible for maintaining the completed facility for public use. The property shall be maintained and operated for the purpose for which it was approved and funded for a period commensurate with the federal investment or State rules, whichever is greater. Should Local Government at any time after Project completion decide it can no longer maintain and operate Project for its intended purpose, Local Government shall consult with State and the FHWA as to the disposal or alternate uses, consistent with Project's original intent. State may require Local Government to return the federal funds in accordance with 2 CFR Part 200 federal recapture requirements. Should Local Government consider conveying the property, State and FHWA must be notified prior to the sale, transfer, or disposal of any property that received federal funds. Written concurrence of approval for the transaction, detailing any required recapture, must be obtained from FHWA prior to the transaction. Advance notice from Local Government of their intended action must be submitted to State for an FHWA review a minimum of 90 days prior to any action being taken by Local Government. Local Government shall be held responsible for reimbursement of all federal funds used or a portion of those funds based on a pro-rata amount, considering the original percentage of federal funds provided and the time elapsed from Project completion date. This same percentage of reimbursement also applies to any amount of profit that may be derived from the conveyance of the property, as applicable.
- B. Any manufacturer warranties extended to Local Government as a result of Project shall remain in the name of Local Government. State shall not be responsible for honoring any warranties under this Agreement.
- C. Should Local Government derive any income from the development and operation of Project, a portion of the proceeds sufficient for the maintenance and upkeep of the property shall be set aside for future maintenance. A project income report shall be submitted to State on a quarterly basis. Monies set aside according to this provision shall be expended using accounting procedures and with the property management standards established in 2 CFR Part 200.
- D. Should any historic properties be included in or affected by this federally funded Project, the historic integrity of the property and any contributing features must continue to be preserved regardless of any approved changes that may occur throughout the life of Project.

13. Right of Way and Real Property Acquisition

- A. Right of way and real property acquisition shall be the responsibility of Local Government. Title to right of way and other related real property must be acceptable to State before funds may be expended for the improvement of the right of way or real property.
- B. If Local Government is the owner of any part of Project site under this Agreement, Local Government shall permit State or its authorized representative access to occupy the site to perform all activities required to execute the work.

- C. Local Government will comply with and assume the costs for compliance with all the requirements of Title II and Title III of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, 42 USC §4601 et seq., including those provisions relating to incidental expenses incurred by the property owners in conveying the real property to Local Government, and benefits applicable to the relocation of any displaced person as defined in 49 CFR §24.2(g). Documentation to support such compliance must be maintained and made available to State and its representatives for review and inspection.
- D. Local Government shall assume all costs and perform all work necessary to obtain needed evidence of title or right of use to the real property required for development of Project. Evidence of title or right of use shall be acquired in the name of (1) State, if the real property is to be made part of the State Highway System, or (2) Local Government, if the real property is not to be made part of the State Highway System. The evidence of title or rights shall be acceptable to State, and be free and clear of all encroachments. Local Government shall secure and provide easements and any needed rights of entry over any other land needed to develop Project according to the approved Project plans. Local Government shall be responsible for securing any additional real property required for completion of Project.
- E. Local Government shall prepare real property maps, property descriptions, and other data as needed to properly describe the real property and submit them to State for approval prior to Local Government acquiring the real property. Tracings of the maps shall be retained by Local Government for a permanent record.
- F. Local Government shall determine property values for each real property parcel to be purchased with federal funds using methods acceptable to State and shall submit to State a tabulation of the values so determined, signed by the appropriate Local Government representative. The tabulations must list the parcel numbers, ownership, acreage, and recommended compensation. The tabulation must be accompanied by an explanation to support the estimated values, together with a copy of the documentation and reports used in calculating each parcel's value. Expenses incurred by Local Government in performing this work may be eligible for reimbursement after Local Government has received written authorization by State to proceed with determination of real property values. State will review the data submitted and will base its reimbursement for parcel acquisitions on these in determining the fair market values. Local Government will not be reimbursed for right-of-way costs on state-selected projects.
- G. For State-selected TASA projects, Local Government shall not use eminent domain or condemnation to acquire real property for this TASA Project.
- H. Reimbursement for real property costs will be made to Local Government for real property purchased in an amount not to exceed 80 percent of the cost of the real property purchased in accordance with the terms and provisions of this Agreement. Reimbursement will be in an amount not to exceed 80 percent of State's predetermined fair market value of each parcel, or the net cost thereof, whichever is less. In addition, reimbursement will be made to Local Government for necessary payments to appraisers for expenses incurred in order to assure good title. Local Government will not be reimbursed for right-of-way costs on state-selected projects.

- I. Local Government and current property owner are responsible for any costs associated with the relocation of displaced persons and personal property as well as incidental expenses incurred in acquiring property to implement Project. State will not pay any of these costs.
- J. If Project requires the use of real property to which Local Government will not hold title, a separate agreement between the owners of the real property and Local Government must be executed prior to execution of this Agreement. The separate agreement between Local Government and the current property owner must establish that Project will be dedicated for public use for a period of time not less than ten years after project completion and commensurate with the federal investment. For State-selected projects, this is outlined in 43 Tex. Admin. Code §11.417. The separate agreement must define the responsibilities of the parties as to the use of the real property and operation and maintenance of Project after completion. The separate agreement must be approved by State prior to its execution and a copy of the executed separate agreement shall be provided to State.
- K. Local Government shall execute individually or produce a legal document as necessary to provide for Project's continued use from the date of completion, and agrees to cause the same to be recorded in the land records of the appropriate jurisdiction.
- L. Local governments receiving federal funds must comply with 23 CFR Part 710 and 49 CFR Part 24, and with the procedures provided in Chapter 6 of the State's Local Government Project Policy Manual. Local Government agrees to monitor Project to ensure: (1) continued use of the property for approved activities, and (2) the repayment of the Federal funds, as appropriate. Local Government agrees to the review of their Project accounts and site visits by State during the development of Project at any time. Upon Project completion, State will continue to perform periodic visits to confirm Project's continued use and upkeep.
- M. Before the advertisement for bids, Local Government shall provide a certification to State that all real property has been acquired.

14. Insurance

- A. Should this Agreement authorize Local Government or its contractor to perform any work on State right of way, before beginning work, the entity performing the work shall provide State with a fully executed copy of State's Form 1560 Certificate of Insurance verifying the existence of coverage in the amounts and types specified on the Certificate of Insurance for all persons and entities working on State right of way. This coverage shall be maintained until all work on State right of way is complete. If coverage is not maintained, all work on State right of way shall cease immediately, and State may recover damages and all costs of completing the work.
- B. For projects including buildings, Local Government agrees to insure the building according to Department specifications and further agrees to name the Federal Government as a "Loss Payee" should the building be destroyed.
