Executive Summary and Background Information:

Z-19-8: This is a request by Wayne and Alicia Malone, under contract to purchase, to rezone Lots 5-12, Block 7, Greater Texarkana Addition, located at 704 Ward Avenue from Single Family-2 to Single Family-3. The proposed use is one 2007 double wide HUD code manufactured home. The current use is vacant land.

The adjacent zoning is Single Family-2 to the north, south, east and west. The adjacent land use is vacant land to the north, south, east and west.

The City's Zoning Ordinance was amended to comply with the state law in 2002, requiring that all manufactured housing be HUD code building standard. This amendment also stipulated that all HUD code manufactured homes inside the city limits be placed in the Single Family-3 zoning district along with the approval of a Specific Use Permit.

The Comprehensive Plan has designated this as an Industrial area although the zoning is residential. Double wide manufactured housing looks like some of the existing frame pier and beam houses in the area. This type housing could also be a revitalization housing alternative to traditional site built homes. Therefore, staff recommends for approval of this request.

The applicant should also be aware that if this zoning change is approved, all other applicable city code/ordinance requirements must be met including but not limited to building codes, setbacks, subdivision, fire, parking, drainage, water and sewer prior to the issuance of building permits.

All notification and application requirements have been met to consider this request.

Updates/History of Briefing:

Executive Summary and Background Information:

Z-19-9: This is a request for rezoning from Commercial to Planned Unit Residential-2 (PUR) 2 by Lee Medley, dba Mt. Kirby Investments, LLC, owner, located at the southwest corner of West 6th Street and Main Street (Lot 1, Block 53, City/Triggs Addition). Currently, the property is vacant.

The adjacent zoning is Commercial to the north, south, east and west. The adjacent land use is an office to the west, parking lots to the north and east and a residence/office to the south.

The Comprehensive Plan has designated this area as the Downtown Core.

The request is to rezone this lot to the new (PUR) 2 zoning classification and allow the construction of four (4) small lot homes on this downtown lot. The addition of the PUR-2 zoning classification was created to provide for the development of unique and innovative forms of single-family housing with an emphasis on walkability in the downtown core.

This zoning change aligns with a Comprehensive Plan implementation goal outlined as 4.1.17 "to maximize value, in neighborhoods, smaller residential lots or more dense development patterns should be located in the closest proximity to any parks and open spaces provided—this will maximize the value of those areas, and the parks & open spaces off-set smaller lot sizes." This development will be within walking distance to downtown amenities including the Regional Arts Center, ArtSpark, farmers' market and Perot Theatre.

The proposed small home concept per the owner will consist of the following:

- Single family housing units with premium finishes (approximately 1,000 sq. ft)
- Built flush with the curb with a 6' front porch design
- Utilize on street parking

Please see attachments that show renderings of the proposed exterior, interior, floor plan and layout for this proposed development.

Since this development meets a Comprehensive Plan goal and will provide additional residential properties in the downtown area, staff recommends for approval of this request.

Executive Summary and Background Information:

S-707: This is a request by Style Studio and OMG Lulu, owner, and Lisa Harris and Natalie Singleton, agents, for a Specific Use Permit, SUP, to allow the location of a permanent cosmetics/microblading business at 4040 Gibson Lane. A hair salon and a clothing boutique are currently located on this site.

The adjacent zoning is General Retail to the east and west and PD-General Retail to the north and south. The adjacent land usage is retail uses to the east, west and south and a storage facility to the north.

This property is zoned General Retail. A Specific Use Permit is required to allow the one additional use of a permanent cosmetics/microblading business which is also considered a "tattoo" per the City's Zoning Ordinance. The State of Texas will regulate this business as to licensing and other health related issues. Several medical facilities and hair salons are now offering this type service for clients.

If this request is approved, staff would suggest the following stipulations be placed in the Ordinance:

1. That the owner/or any employee performing the application of permanent cosmetics/microblading (tattooing) procedures be currently licensed by the State and meet all Federal, State and City licensing laws and health regulations. (A copy of the current license must be provided to the City prior to the opening of the business).
2. That the Specific Use Permit be intended for the application of permanent cosmetics/microblading only.
3. That if this use ever ceases to exist at this location, the City may automatically revoke the Specific Use Permit.

This request meets all city requirements to allow this one additional use on this property. There should be adequate parking for this business.

Executive Summary and Background Information:

The City has adopted the International Fire Code to ensure the safety and welfare of its citizens. As with all codes, there is a need to update the code periodically to ensure the regulations and requirements are current and applicable to our City.

Currently, we operate under the 2006 edition of the International Fire Code. The code is updated every three years. We are proposing adopting the 2018 edition of the International Fire Code.

The Fire Department is currently preparing for a regrade from the Insurance Services Office (ISO). ISO is the organization that applies a Property Protection Class to cities which is often referred to as an ISO rating. The rating ranges from a 1 to 9 with 1 being the best possible fire department and 9 representing no protection at all. We currently enjoy a rating of a 2. One aspect of this rating is determined by our fire code. We receive points for having an adopted fire code and for also keeping the fire code updated.

Potential Options:

- Approve the ordinance as presented
- Reject the ordinance as presented

Fiscal Implications:

There is no cost to adopt the new version of the International Fire Code

Staff Recommendation:

Staff recommends approval

Advisory Board/Committee Review:

We plan to have a stakeholder meeting during the 1st week of June to discuss the changes in the new code with local builders and others who have an interest in the fire code.

Update Date: 5/22/2019 1:30 PM

Lead Department: City Manager **Action Officer:** Jennifer Evans, City Secretary
Subject: Ordinance No. 2019-051 amending the Code of Ordinances of the City of Texarkana, Texas, in Chapter 2, "Administrative Provisions", by adding Section 2-55 "Advisory Committees".

Briefing: 5/28/2019 **Public Hearing:** 6/10/2019 **Council Vote:** 6/10/2019

Item Schedule

Updates/History of Briefing:

Executive Summary and Background Information:

- (a) Older ordinances, some uncodified, govern various committees' structure, term limits, absenteeism, and vacancies. This new section to the Code of Ordinances simplifies formation and duration of advisory committees. The purpose of an advisory committee would be to provide short-term advice and input, and therefore a typical three-year term for committee membership would not apply. This section can be used for specific-purpose committees such as advisory groups tasked with proposing revisions to various codes. The Council can also use this section to reconstitute a budget advisory committee.
- (b) Committee membership, at times, turns on availability of volunteers and the particular need of the advice and input sought. Texarkana-only citizenship is not a requirement for committees formed under this section. For Building Code and Electrical boards, some older ordinances detail specific professional capacities of persons to fill particular member slots; removing that specific structure from the Code and using this provision may provide greater flexibility when forming and staffing committees.
- (c) Committee membership, alone, shall not entitle a person to any compensation. However, anyone receiving City money for other reasons will not lose that compensation when serving on a committee.
- (d) This subsection uses precise words from Attorney General opinions to define committee function as advisory. Having "no power to supervise or control public business or policy" would not require a committee to provide public notice for meetings.
- (e) Committees or commissions in the Code of Ordinances such as the Historic Landmark Preservation Committee and Library Commission would not be affected by this section. Also, this section would not apply to Planning & Zoning, Zoning Board of Adjustment,

City of Texarkana, Texas

TIRZ boards, and Building and Standards Commission, since those bodies are “created or otherwise governed by this Code or law”.
