The Mayor said adoption of this resolution will be historic and momentous because it will affect Texarkana for the next 50 to 60 years. This resolution will allow the Texarkana region to be backed by strong water resources, will enable the future sale of water to other areas, and will ensure an abundant and uninterrupted water supply for future generations of Texarkana citizens. This will be a long term investment in Texarkana's growth and development.

Mr. Dooley said RWRD is moving forward and is very close to securing funding for a new water treatment facility, a new transmission line and a new intake at Lake Wright Patman. He is hoping to hear something by mid-July after final review. Also, much effort has been put into getting all of the water supply contracts, for all of the participants, to align and read the same.

Water Liaison Steve Mayo said many mayors and participants over the last decade have come together, earned each other's trust, and have contributed to this complex project. This is a big day for everyone involved.

Executive Summary and Background Information:

The City was planning on purchasing a mobile soundstage from the Fleet Capital Replacement Fund in FY21. This stage will replace the current stage that was bought 20+ years ago and will be used for many events in the Parks and other city related events. The current stage will remain at Spring Lake Park for use.

TEXAR contacted the City about donating half the funds to speed up this purchase. We received a quote from Stageline Mobile State, Inc., a sole source provider, for \$164,030. TEXAR will be donating half of this cost (\$82,015) so we are needing to add \$82,015 in revenue to Fleet Capital Replacement Fund for FY20. Once this is ordered, it will take about 2 to 3 months for delivery.

Potential Options:

- Approve accepting the donation and amending budget for the Fleet Capital Replacement Fund for FY20
- Not Approve accepting the donation and amending budget for the Fleet Capital Replacement Fund for FY20

Re: Sole Source Product

Dear Angela,

This letter is to confirm that the Stageline SL100 is a sole source product. The mobile stage is manufactured, sold and distributed exclusively by Stageline Mobile Stage inc. We are the one supplier and sole source for reasons of expertise, quality, safety, specifications and durability that meets and exceeds your needs of quality long lasting and safe mobile stage equipment.

Sole Supplier:

- We have **the only aluminum frame roof structure that is completely wrapped in fiberglass** - Fiber Lock, wraps around the aluminum roof panel structure adding to the rigidity and strength, to the safety and to the life expectancy of the roof and of the equipment as a whole.
- The product carries the only warranty that offers **5 years coverage for the aforementioned Fiber Lock process** and roof's water repellency.
- The Stageline SL100 is the only mobile stage of its size to offer **rigging points at 6' from the roof corners without needing the addition of cables** to secure the overhanging beam.
- Stageline provides, as one of its options, an ADA compliant lift that can be positioned anywhere around the stage.

There is no division of Stageline that has any right of sub-license to make a similar or competing product. There is only one price for the above-named product fabricated and exclusively distributed by Stageline who holds all marketing rights.

Stageline Mobile Stage Inc.

700 Marsolais, L'Assomption, Quebec, Canada J5W 2G9 • Tel: 450-589-1063 • 1-800-26-stage (North America) • Fax 450-589-1711

Web: <http://www.stageline.com> • E-mail: info@stageline.com

The Stageline technology has innovative designs that improve scores on durability, safety, and maintenance requirements.

- Stageline warrants that no other mobile staging product is available for purchase that has a Fiber Lock process, or a near equivalent except for other Stageline products.
- Stageline warrants that no other product made for similar purposes can resist winds of 115 mph or a near equivalent. An inferior safety factor in resisting wind is unacceptable to us.
- Stageline warrants that no other product yields the same or equivalent levels of safety, ease of operation, ease of maintenance and durability as the Stageline SL100.

Stageline SL100 / Added Features

- 1 The SL100 has the highest wind tolerance for outdoor stages – it resists gust winds of 115 mph without windwall. No guy wires and no additional ballasts are required for stability.
- 2 The 24' 11" wide by 23' 7" roof is raised by a hydraulic double-mast lifting mechanism. Contrary to H-type or central roof structures, or roof structures with knuckle and/or hinge joints, the double-mast system completely eliminates the risk that weight rigged into the roof cause shifting which in turn can make the telescoping structures jam.
- 3 The roof is equipped with two (2) sound extension beams extending 6' off its downstage corners.

The overhanging beam is not assisted by an overhead post and cable that needs assembling.
- 4 The sound extension beams on the SL100 enable you to hang video screens to each side aswell as a full sound system.
- 5 The roof is made of fiber glass wrapped around the aluminum structure. No rivets or glue go into the fabrication. Three inch (3") square aluminium corner posts maximize audience sightlines.
- 6 The surround is a fire retardant windwall and/or scrim wall installed using a keder and aluminium track system that provides for rapid installation and maximum protection from rain, dust, sun and wind for artists and equipment.
- 7 The SL100 can accommodate banner support hardware both horizontally (36' long x 4' high) above the roof line and vertically (15' high x 6' wide) in front of the speaker positions for maximum sponsorship possibilities. Such large banners are installed without affecting the wind resistance rating.

- 8 The all-aluminium SL100 weighs 9,900 lbs with an additional 5,000 lbs payload.
- 9 The SL100 comes with a multifaceted warranty of one, three and five years on, respectively:
 - a. 1 year coverage - standard manufacturer's warranty,
 - b. 3 years coverage - welded structures including the chassis,
 - c. 5 years coverage - Fiber Lock roof
- 10 24 hour (24/7) Service hotline (800-267-8243) supports you for as long as you own the stage.
- 11 Safety is a priority.
 - a. all hydraulic components are equipped with check valves.
 - b. the stage has a secondary locking system.
 - c. all new stage designs are tested at twice the working load .
 - d. each individual unit is quality controlled with a 600-point inspection and tested at 1.2 times the working load.
 - e. the SL100 meets all North American Building Codes as well as the standards of IBC, SAE, DOT, NFPA, BOCA, NBC & CWB.
 - f. The SL100 is certified by professional Engineers in every state of the United States of America and Canada.

No candidate may take action to influence an employee of the office to which the candidate is seeking election or an employee or officer of the governmental body to which the candidate is seeking election regarding the appointment or employment of a person related to the candidate in a prohibited degree as noted above. This prohibition does not apply to a candidate's actions with respect to a bona fide class or category of employees or prospective employees.

Examples of relatives within the third degree of consanguinity are as follows:

- (1) First degree: parent, child;
- (2) Second degree: brother, sister, grandparent, grandchild;

Executive Summary and Background Information:

We received a request from Mr. Patrick Hill to rename Alba St. from Oaklawn Drive to New Boston Road to Savannah Hill Drive. The reason behind this request is Mr. Hill is planning to build the Corporate Headquarters for Georgia Southern Fried Chicken along this street. I am attaching a copy of the request letter and a rendering of the future building.

There are four different property owners along Alba Street: Mr. Hill, Bancorp South, Oaklawn Baptist Church, and Jimmy Dossey. We have notified all owners that this request will be heard by City Council on July 13, 2020, and they will be allowed to speak at a Public Hearing that date as well. The only properties at this time that would have address changes if this is approved is the property owned by Mr. Hill and Mr. Dossey. Staff has not received any calls on this request at this time.

If approved Mr. Hill will be responsible for the cost to replace the existing street signage.

Potential Options:

- Approve the renaming of Alba Street to Savannah Hill Drive

TO: City of Texarkana, Texas

From: Patrick A. Hill

RE: Alba St

Dear Council Members,

My name is Patrick A. Hill and I am a lifelong Business Owner in our city and I just purchased the property at 300 Baylor St. from Bancorp South Bank. My reason for wanting to change the name of this street is for some very exciting news for the City of Texarkana, Texas. I am launching the first food franchise in our city history called Georgia Southern Fried Chicken. We believe this franchise will be in a **minimum of 20 states** within 10 years. The current address of 300 Baylor St. reflects the street West of this building (back of building) that is not accurate of our entrance to the front door or parking lot. I am requesting the complete street name change from the Southwest corner from New Boston Rd to Northeast corner intersection of Oaklawn dr. These franchise recipes are inspired from the matriarch of The Hill Family and that is another reason I and the entire family would perceive this a real honor and tribute to my grandmother for the renaming of this street to Savannah Hill Dr. The actual restaurant will be built at the site of the Automatic Carwash in front of the Walmart Supercenter located @ 408 Walton Dr. Texarkana, Texas. Once the Corporate headquarters reach full swing we anticipate there being at least 15 full time jobs along with 24 full and part-time jobs for a total of 39 New Jobs for our local economy. I have personally spoken to Bancorp South Market President Mr. George Merrill and has stated to me that renaming this street to Savannah Hill Drive was an excellent idea and that

the bank was 100% behind me. The construction of this site is slated to start by the end of May 2020 and the restaurant construction is slated for October 2020 with an opening date opening day of MLK birthday 2021 because of the Corona Virus. I do not see the street renaming having any adverse effect on any property owner and ask that you would approve this application so that I can prepare our Website, Letterheads, and Business Cards in a timely fashion. I thank each of you for your time and consideration in this matter and if you have any further questions or concerns please do not hesitate to contact me @ 903-293-2163 or by mail at 833 CR 1214 Texarkana, Texas 75501.

Sincerely,

A handwritten signature in dark ink, appearing to read "Patrick A. Hill". The signature is fluid and cursive, with a large, sweeping loop at the end.

The Future Land use map designated this property as "Neighborhood Residential".

The City's Zoning Ordinance was amended to comply with the state law in 2002, requiring that all manufactured housing be HUD code building standard. This amendment also stipulated that all HUD code manufactured homes inside the city limits be placed in the Single Family-3 zoning district along with the approval of a Specific Use Permit.

There are a couple of tracts of land located in this immediate area that are currently zoned Single Family-3. HUD code double wide manufactured housing looks like some of the existing frame pier and beam houses in the area. This type housing could also be a revitalization housing alternative to traditional site-built homes. Therefore, staff recommends for approval of this request.

The applicant should also be aware that if this zoning change is approved, all other applicable city code/ordinance requirements must be met including but not limited to building codes, setbacks, subdivision, fire, parking, drainage, water and sewer prior to the issuance of building permits.

All notification and application requirements have been met to consider this request.

This property is currently vacant land.

The adjacent zoning is Single Family-2 to the north, south, east and west. The adjacent land use is vacant land to the north, south, east and west.

HUD code double wide manufactured housing looks like some of the existing frame pier and beam houses in the area. This type housing could also be a revitalization housing alternative to traditional site-built homes.

DRAFT

Describe cooperation & coordination with other public entities, including the State & any adjacent units of general local government, in the implementation of the Consolidated Plan (91.215(l))

The City of Texarkana, Texas enjoys a unique & challenging position in that it is a twin city to the City of Texarkana, Arkansas. The two cities share many things including infrastructure (roads, bridges, potable water systems, storm water systems, & sewage systems), planning organizations (MPO, Ark-Tex Council of Governments), health care agencies (Wadley Regional Medical System, Christus St. Michael Health System), economic development (Chamber of Commerce) & other non-profit agencies (Randy Sams Outreach Shelter, Salvation Army, Harvest Texarkana, Volunteer Center, Literacy Council, unique bi-state Workforce Development efforts). Consequently, collaborative planning is a necessity for the City & common practice. These agencies provide continual collaboration with the City in all aspects of community planning, including this Action Plan. Additionally, the City works closely with the Texarkana Housing Authority & has collaborated & provided funding for the renovation of existing public housing units.

Narrative (optional):

The Action Plan was developed in consultation with a wide range of public & private entities, including governmental & non-profit organizations knowledgeable about the needs of the low & moderate-income residents of Texarkana, & private citizens interested in, or affected by, the housing & community development activities discussed in the Plan. These contacts are part of a continuous process conducted in order to involve the broader community in assessing priority housing & community development needs; developing priorities, goals & objectives for addressing identified needs; & allocating available CDBG & other federal, state & local funding to activities that address priority needs.

AP-12 Citizen Participation

1. Summary of citizen participation process/Efforts made to broaden citizen participation Summarize citizen participation process & how it impacted goal setting

The City of Texarkana has implemented actions to develop institutional structures & enhance coordination between city departments, housing providers & social service agencies, & foster assisted housing improvements & resident initiatives. Through public hearings & meetings held throughout the year, the City continues to utilize a network of contacts, referrals, & partnerships to implement the strategies outlined in the Five-Year Consolidated Plan & re-enforced in each Annual Action Plan. The City will continue to build its relationship with local housing/service providers & the Housing Authority to ensure that the current limited housing resources are utilized in the most efficient manner possible & to meet the housing needs of extremely low, very low, & low-income renters & homeowners.

Texarkana Government Access Television provides public service & local government programming through Cable One. City Council meetings & other committee meetings are streamed on-line & archived. There is a municipal access channel (government access channel) that serves both Texas & Arkansas. Texarkana, AR manages the channel with Texarkana, TX paying a management fee. The channel divides the time equally for both cities showing meetings, general information, links to resources & documents, PSAs & any other relevant information. The Planning & Community Development department oversees the CDBG grant. The Grant Administrator is responsible for the day-to-day operation of the program. The department works in conjunction with the City's Finance, Inspection, Public Works, Street, & Parks & Recreation Departments to oversee the development of the Action Plan & administer the programs & activities incorporated in the Plan.

Interviews with key stakeholders included CDBG & other City staff, Texarkana Housing Authority staff, Area Office on Aging staff, homeless providers, services providers, Bowie County Veterans Service Officer, banking providers provided the basis for much of the information in the Plan.

Expected Resources

AP-15 Expected Resources – 91.220(c)(1,2)

Introduction

The City of Texarkana will receive a CDBG allocation of \$372,144 for PY 2020; \$159,447 from Revolving Loan Fund; \$2,500 Program Income; \$100,000 in CDBG-CV funds with the reallocated funds from previous years of \$61,909 for a total of \$696,000 to be used for eligible CDBG activities & for loan repayment.

Table 5 - Expected Resources – Priority Table

Explain how federal funds will leverage those additional resources (private, state & local funds), including a description of how matching requirements will be satisfied

The City recognizes the importance of leveraging resources. It is estimated that over the course of the 5 Year Plan, these community development projects will bring \$1.75 in private resources spent in the local economy for each grant dollar invested. Matching requirements will be met by in-kind donations of labor &/or materials. The programs listed above do not require matching funds. When matching funds are required, the City usually provides in-kind matching through labor & supplies or provides cash matches from the City's general funds.

If appropriate, describe publicly owned land or property located within the jurisdiction that may be used to address the needs identified in the plan

Publicly owned land or property located within the jurisdiction includes housing lots owned by the city, city parks, & scattered properties may be used to promote economic development, provide support for homeless programs &/or affordable housing in Texarkana. Additionally, publicly owned land may also be used to support public health activities, infrastructure & public services.

Discussion

Texarkana anticipates receiving federal funding over the next year from the Community Development Block Grant (CDBG) program. These funds will be used to fund projects which advance the goals identified in the 2020 Action Plan. Projects carried out using these federal funds over the next year will leverage additional funds from state & local government as well as private funding sources.

Describe the reasons for allocation priorities & any obstacles to addressing underserved needs

The City of Texarkana responds to the needs expressed in public hearings & stakeholder meetings. Affordable housing (rental & homeownership) & public improvements were listed as high priorities. To improve the quality of life of all citizens in Texarkana, the City will work with service & housing providers to address both the need for additional affordable housing & supportive service needs. Construction of 20 affordable housing units is underway with the Grim project and the City plans to draw all remaining Section 108 loan funds in PY2020. The City also plans to pay off \$460,000 of the loan in PY2020. The geographic areas of Beverly & Downtown were chosen because they have the greatest potential & greatest need.

The lack of additional funding is the major obstacle faced by the City when meeting underserved needs. The City will continue to investigate funding opportunities as they are identified.

AP-50 Geographic Distribution – 91.220(f)

Description of the geographic areas of the entitlement (including areas of low-income & minority concentration) where assistance will be directed

CDBG funds are allocated city-wide to projects & activities that benefit low-moderate income persons & households or provide services to residents in a low-moderate income area. The Beverly, Rosehill, Liberty-Eylau neighborhoods & the Downtown area are the target areas that are selected for projects during PY20. The City has also elected to provide Down Payment Assistance city-wide for income eligible applicants.

Rationale for the priorities for allocating investments geographically

The City of Texarkana responds to the needs expressed in public hearings, focus groups, surveys & stakeholder meetings. The Downtown area, Beverly community, Rosehill community & Liberty-Eylau community have been identified as areas where CDBG funds can be used for revitalization activities. The City will work with service & housing providers to address both the need for additional affordable housing & supportive service needs. The City will use CDBG funds to provide down payment & closing cost assistance to low-moderate income homebuyers & continue supportive services programs.

Discussion

The lack of additional funding is the major obstacle faced by the City when meeting underserved needs. The City will continue to investigate funding opportunities as they are identified & to expand programs when financially feasible.

Affordable Housing

AP-55 Affordable Housing – 91.220(g)

Introduction

Affordable housing remains a high priority. Rising costs of construction, the availability of financing & the demand for a limited amount of land have combined to constrain affordable housing production. The result is significantly higher costs for housing when incomes are not be rising at the same pace.

AP-60 Public Housing – 91.220(h)

Introduction

HATT has systematically replaced or revitalized aging inventory through the HOPE VI grant & currently through the Rental Assistance Demonstration program. Robison Terrace is the last property to be renovated through RAD. During the RAD conversion all residents were relocated to other HATT properties & relocation expenses were provided by HATT.

Actions planned during the next year to address the needs to public housing

HATT will continue the conversion to RAD & project-based vouchers to meet the housing needs of its residents. HATT will continue to improve the living environment of its residents by:

- Expanding public housing security efforts & continuing to work with the City's Police Department
- Developing educational, cultural, & supportive service programs to further foster social & economic independence for its residents
- Implementing programs that promote a healthy lifestyle
- Increasing youth programs for public housing residents by fostering partnerships in the community
- Increasing resident participation in the Resident's Executive Council.

Actions to encourage public housing residents to become more involved in management & participate in homeownership

HATT actively promotes resident involvement through Resident Councils, targeted outreach via website, flyers, emails, mailing lists, & community notice boards at all community centers on Housing Authority properties. HATT has a homeownership program & provides homebuyer education classes for public housing residents. Residents are encouraged to attend public hearing & meetings during the City's public participation process.

If the PHA is designated as troubled, describe the manner in which financial assistance will be provided or other assistance

The Housing Authority of Texarkana is not designated as a troubled public housing authority.

AP-65 Homeless & Other Special Needs Activities – 91.220(i)

Introduction

The Texarkana Homeless Coalition meets monthly to discuss issues & challenges in meeting the needs of those experiencing homelessness or at-risk of homelessness. Members of the Coalition represent service & housing providers, public housing staff, emergency services & city staff. The Texarkana Homeless Coalition is part of the Texas Balance of State Continuum of Care & that is managed by the Texas Homeless Network (THN), a statewide nonprofit agency. The Texas Balance of State CoC is made up of all service providers, advocates, local government officials, & citizens who work to eliminate homelessness in over 216 counties in Texas outside of most major metropolitan cities. THN assists local homeless coalitions with community-based planning to develop plans to end homelessness & new projects to fill gaps in housing & services.

Describe the jurisdictions one-year goals & actions for reducing & ending homelessness including:

Reaching out to homeless persons (especially unsheltered persons) & assessing their individual needs

The City supports the Texarkana Homeless Coalition in its outreach & assessment efforts for homeless persons in the community by participating in Texarkana Homeless Coalition. The City will continue to organize stakeholder meetings to discuss & plan for more intensive outreach to those experiencing homelessness. There are no agencies in Texarkana that provide only outreach activities. Many agencies provide outreach to the specific population that they serve. The City uses CDBG funds to support these agencies in their efforts.

Addressing the emergency shelter & transitional housing needs of homeless persons

Emergency shelter in Texarkana is provided by Randy Sams Outreach Shelter. Randy Sams is a low-barrier homeless shelter & an ID is not required to stay at the shelter. There are 112 emergency beds available for up to 90 days at a time. The shelter also provides showers, food, transportation & case services.

Rapid Re-Housing (formerly transitional housing) is provided by Randy Sams with 22 households receiving assistance & by Doorways Home providing 10 households with housing vouchers. Households in the Rapid Re-Housing programs pay subsidized rent & receive assistance with case management & life skill classes & job training. The development of a family shelter is crucial to meeting the needs of homeless families. In order to make homelessness short-lived & non-recurring, there is a need for additional Rapid Re-Housing vouchers & services.

Helping homeless persons (especially chronically homeless individuals & families, families with children, veterans & their families, & unaccompanied youth) make the transition to permanent housing & independent living, including shortening the period of time that individuals & families experience homelessness, facilitating access for homeless individuals & families to affordable housing units, & preventing individuals & families who were recently homeless from becoming homeless again

There are no permanent supportive housing programs in Texarkana & the need for such housing is great. The Texarkana Homeless Coalition & the City will continue to identify agencies that have the capacity to expand their programs to provide permanent supportive housing. In order for chronically homeless individuals to maintain permanent housing, supportive services must be a part of their housing plan. Many chronically homeless & special needs populations will require long-term rental assistance since many are on disability incomes which do not cover the cost of housing plus living expenses. The average income for a person receiving Supplemental Security Income (SSI) is \$750 per month. Coordinated Entry has facilitated the access of housing & services for many people experiencing homelessness, but the availability of affordable & decent housing does not meet the need.

Helping low-income individuals & families avoid becoming homeless, especially extremely low-income individuals & families & those who are: being discharged from publicly funded institutions & systems of care (such as health care facilities, mental health facilities, foster care & other youth facilities, & corrections programs & institutions); or, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs

Individuals with severe mental health challenges often require transitional or permanent supportive housing including ongoing treatment, social services & housing assistance to recover & live independently. Homelessness prevention services are needed for ex-offenders & persons being discharged from mental health facilities for reentry into their communities. Currently in Texarkana, there are no programs targeted to assist these individuals. Randy Sams is a low barrier shelter that provides emergency housing but only for a period of 90 days. The Coalition is discussing how to provide services & permanent housing solutions for these populations as well as unaccompanied youth. Youth aging out of foster care need transitional housing & supportive services. Lack of funding & lack of capacity of local agencies are the challenges to providing this type of housings.

The City will continue to use CDBG funds to support programs that address housing & service issues of those with special needs &/or at risk of becoming homeless. The largest obstacle is a lack of transitional & permanent supportive housing. The City will work with local service providers & provide funding when available & appropriate for programs that serve special needs populations.

Discussion

In PY2020, the City is assisting low-income &/or homeless persons by providing CDBG funding to agencies that provide supportive services to those experiencing homelessness. The challenges for providing an adequate supply of a variety of housing options are lack of funding & lack of capacity of the agencies to expand or create new programs. Efforts will be made during the year to identify ways to provide permanent supportive housing & a family shelter.

AP-75 Barriers to affordable housing – 91.220(j)

Introduction:

Many public & private sector policies & factors can create barriers to affordable housing for low- to moderate-income households. In general, the City's policies do not create undue barriers to affordable housing. The City has a fair housing ordinance which indirectly reduces the barriers to affordable housing by ensuring that all protected classes, many of whom are low- to moderate-income have equitable advantages to housing of choice. The City's development & building standards have been established to protect the citizenry & the general welfare of the community, which can result in higher costs for new & rehabilitated structures. The City uses all of the current international & national codes related to residential construction & rehabilitation as a means to protect the residents & the community as a whole. Development impact fees have been established to ensure that the developer carries the cost of development instead of the taxpayers. However, the impact fees & building standards can drive up the cost of new dwellings.

The adherence to building codes & impact fees are necessary & city-wide to protect the safety & wallets of the community as a whole. With the exception of zoning that prohibits development in or around unsafe areas, zoning ordinances are more flexible than building codes & development fees, & each zoning district does not provide a city-wide benefit. The zoning ordinance prohibits manufactured home parks & mobile homes & manufactured homes as fixed dwellings in all zoning districts. Manufactured home parks may be allowed with a specific use permit in districts zoned as agricultural; & HUD code manufactured homes as a fixed dwelling may be allowed in both agricultural & single family 3 zones, also with a specific use permit. Boarding & rooming houses may only be located within townhome & multi-family residential, commercial & planned development districts. This can be a barrier to group homes for special populations to be located single-family districts.

Private sector barriers include:

- Developers reluctant to construct affordable housing or unable to secure Low Income Housing Tax Credit approval;
- Insufficient number of multi-family units;
- High number of vacant housing that is abandoned or uninhabitable, preventing new development on the lots;
- Sellers requiring higher down payments than LMI buyers can afford; &
- Credit & employment histories of many LMI buyers result in mortgage denial.

Actions it planned to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees & charges, growth limitations, & policies affecting the return on residential investment

Although policies & ordinances can affect the cost of housing, the City's Analysis of Impediments indicates that there are no significant institutional barriers to affordable housing in Texarkana, Texas. Housing costs in Texarkana are considerably lower than the state as a whole, with the city of Texarkana, Texas averaging \$79 per square foot, the Texarkana metropolitan area averaging \$77 per square foot, & Texas averaging \$124 per square foot. The City is committed to maintaining & enhancing its policies that increase equal opportunity to housing for the lower income & protected classes.

To maintain the City's commitment to prevent barriers to affordable housing the City will:

- Maintain flexibility in zoning & building requirements when appropriate to allow for infill housing development;
- Complete the 20 units of affordable loft housing as part of the Grim Hotel project;
- Conduct outreach efforts to for-profit & non-profit builders & developers through funding & technical assistance to increase the supply of decent, affordable housing within low to moderate income neighborhoods as well as creation of affordable housing on a city-wide basis;
- Maintain an Affirmative Marketing Plan to directly market newly developed City-assisted housing units to minority groups least likely to apply to homeownership programs;
- Meet with local lenders & home builders to encourage the use of non-traditional client loan qualifying & loan products to better serve the needs of homebuyer households with challenges that preclude conventional qualification;
- Support local Continuum of Care efforts for homeless populations & provides ongoing support & technical assistance to the Texarkana Homeless Coalition;
- Work with local agencies that provide financial case management & credit counseling;
- Review & when applicable, revise the Fair Housing ordinance which ensures that fair housing options are available to its citizens;
- Monitor city-sponsored projects for equal access & compliance of the Fair Housing Act;
- Monitor code compliance to HQS & Fair Housing standards;
- Hold periodic Public Hearings providing information & requesting public comment on affordable & fair housing issues;
- Work with local housing service providers to conduct homebuyer & homeowner education;
- Conduct public outreach regarding availability of housing & housing assistance including translation of housing application materials into Spanish & maintains bi-lingual staff to assist applicants & clients who are not English-proficient.

Discussion:

The City is concerned with the shortage of affordable housing units that meet housing quality standards. Many of the units have been lost through abandonment of older properties. One way that the City is directly impacting the problem is the renovation & repurposing of the Grim Hotel. They will be constructing 20 affordable units in the hotel. The project began in PY2018 and will continue through PY2022. The other efforts with greatest effect are those where the City collaborates with the private non-profit & for-profit community as they provide affordable housing solutions.

AP-85 Other Actions – 91.220(k)

Introduction:

The following actions will be undertaken to address obstacles to meeting underserved needs, foster & maintain affordable housing, reduce lead-based paint hazards, reduce the number of poverty level families, & develop institutional structure.

Actions planned to address obstacles to meeting underserved needs

Requests for funding far exceed the available entitlement dollars received by the City of Texarkana. The City will continue to partner with non-profit agencies to leverage its CDBG allocation so that the maximum benefit is achieved. The City will facilitate a stakeholder's meetings & participate in the Texarkana Homeless Coalition to identify unmet needs & to strategize on how to meet those needs.

Actions planned to foster & maintain affordable housing

The City will continue to support development of affordable housing by providing flexibility in its development standards that encourages the industry to seek community partners. The City will fund owner-occupied rehabilitation & improvements geared toward maintaining the house in a decent condition. The City will support Low Income Housing Tax Credit applications when the project is compatible with the City's goals & objectives.

Actions planned to reduce lead-based paint hazards

Lead-based paint hazard identification & reduction strategies include education, outreach, & conformance with 24 CFR Part 35 regulations. The City distributes and maintains documentation of required information for homes built before 1978, including the EPA Lead-based Pamphlet, Notification of Lead Hazard Evaluation, & Notification of Lead Hazard Reduction. Lead-based paint information is included in the application package for housing rehabilitation & down payment assistance as well as distributed at events & neighborhood meetings.

Actions planned to reduce the number of poverty-level families

Texarkana addresses the problem of poverty through its strategic goals. Through a holistic approach that combines safe, decent affordable housing for low to moderate income households with social services, education, access to health & employment. The City, as lead agency in the implementation of the Consolidated Plan, will coordinate with local organizations to ensure that goals are met & will

continue to provide assistance to agencies that provide services to poverty level individuals & families.

Actions planned to develop institutional structure

The City will continue to make entitlement funds available to the community through issuance of subrecipient agreements. The City provides subrecipient training during the application phase, prior to the execution of subrecipient agreements & is available for technical assistance, if needed. The City distributes updated information on CDBG funded programs to subrecipients when appropriate. The City will maintain its webpage with up-to-date information as a resource for other city departments, general public & service/housing providers. The City is committed to meeting regularly with interested citizens & stakeholders to discuss community development issues.

The City recognizes the need to provide increased outreach to minority & non-English speaking residents. In an effort to reach these populations, the City held public hearings & community meetings with translation services to the Hispanic population at facilities located in low-moderate income areas. Public notices will be in English and Spanish & the City will advertise public hearings in the local newspaper & on their website.

Actions planned to enhance coordination between public & private housing & social service agencies

City staff will continue work with service providers, the local public housing authority, private housing resources & the Continuum of Care to ensure that there is awareness of the available resources & provide a conduit for communication & collaboration.

Discussion:

Since CDBG funding basically remains level, relationships are key to the success of housing, economic & community development efforts within the City of Texarkana. The City will continue to partner with service & housing providers to leverage CDBG funding in assisting the low to moderate residents of Texarkana.
