X. ITEMS FOR DISCUSSION

Tree Ordinance Discussion

Council Member Bill Miller led the discussion by stating he's been asked by several citizens if the city has an ordinance in regards to new development and preservation of trees for new development. Shirley Jaster responded that the city does have an older landscape ordinance but this ordinance does not require tree preservation as an outright.

Ms. Jaster explained the current ordinance has a "point system" for the preservation of trees or the putting in of new trees and landscaping as property is developed. City Manager Whitson gave some details on his past experience in dealing with tree ordinances in other cities. Council Member Brad Casteel said he feels the decision should be up to the property owner whether they want a tree on the property or not. Mayor Bruggeman made closing remarks and said it was a good discussion.

Council Member Brad Casteel asked approximately how many animals does the city take to the animal shelter per year. Shirley Jaster said about 2,200 animals per year.

NORTH STAR ENTERTAINMENTS

12770 RODEO SQUARE DR. #2209
HOUSTON TEXAS
713 955-5712 - 261 748=2647

Management and staff of North Star Entertainments are currently seeking sponsors, advertisers, investors and/or financial backer for the production of an entertainment extravaganza identified as ***"Dancing in the Street"*** by The Mo-Town and More Revue of Houston, Texas. This event is to be produced in the form of musical gala and programmed to honor and simply say thanks to the spouses and caregivers of all military personnel returning from their tours of duty in the Middle East. Many of these spouses are married to military personnel who have served multiple deployments in the combat zones leaving behind loving spouses and/or caregivers. While these service members are routinely rewarded for their tours of duty with decorations and praise they have well earned and justly deserve, that loved one they left behind has been somewhat forgotten in spite of their dedication to the service member as well as their country. Once the service member deploys, these spouses and caregivers become the single parent, the home provider as well as the strength and support of the service member away from home. War and combat can and sometimes do return young service personnel to their loved ones and families as someone totally different than the person that was kissed and sent off to combat. Well, the time has come for these dedicated spouses to have an evening of entertainment designed just for them.

This gala event rill close with "THE MOTOWN AND MORE REVUE performing a show entitled ***"Dancing in The Streets"***at an arena to be named later. Plans for the evening currently call for many of the spouses and caregivers to be honored with prizes, gifts and other forms of recognition.

Communication: Mr. William Germon's handout "Dancin in the Street". (Open Forum: Comments from the public (Limit 5 minutes each))

This event has been designed to be more than just an evening of entertainment. Many of our ill, injured and otherwise infirmed wounded warriors now require all types of medical care and supports. Their living quarters now must be modified to compensate for the wounds and injuries incurred by these great warriors while serving their country away from home. Attached documentation reveal that more than 40,000 Mo-Town fans sat in an outdoor theater to see the 2014 edition of this entertainment presentation. Vendors as well as merchants wishing to show their products to such a vast audience will be invited to set up a booth in the later to be named arena. However, with this event being presented in the Bi-State area of Texarkana, Arkansas and Texarkana, Texas, it is the desire of North Star Entertainments and elected officials of both cities give everyone in the area the opportunity to attend this outstanding gala event. With that being the case, plans are being made to be present "***Dancing in The Streets***" By The Mo-Town and More Revue on the streets of the twin cities. The plan calls for a professional outdoor stage including lights and sound to br place in the middle State Line Drive in front of the Bi-States court house. This plan will allow all citizens of the Bi-State to come out and be a part of a great entertainment evening. North Star Entertainments is current seeking merchants and companies wishing to expose their products, goods and/or services to the vast markets of north east Texas and north west Arkansas to become one of the marquee sponsors of this event. Plans of North Star Entertainments for this event currently call for the use of all forms of the media to reach the vast market of the military complex around and near Red River Army Depot as our primary market for this event. Media advertising plans include but are not limited to market saturation using the electronic medium of commercial radio, and television as well as print medium. Along with radio and television, print media through out the entire state of Texas and parts of western Arkansas

There are regional Veteran Administration out patient clinics in the or near Texarkana. The name and other visibilities of the marquee sponsor will be associated with every visibility and advertisement of this event.

Going forward with this event, North Star Entertainment will add additional acts and entertainers to the show. Keep in mind, this event is not an amateur hour but will be a musical gala in every sense of the word.

Our military spouses and caregivers have represented their love ones which have been and are still away from home serving this great nation by giving their best at home and in their communities. Now is the time for us to give them our best. Join North Star Entertainments in making this even the success it deserves to be.

I call your attention to www.youtube.com/user/BACEVIDS as well as www.dancininthestreetsbymotownandmore.com and look at earlier presentation of "***Dancing in The Streets***" by Mo-Town and More.

North Star Entertainments appreciates any form of support your office can provide. These spouses and caregivers have given their all. Now let us give them our best. You will find by looking at the videos that this show has been designed to lift the spirits of its target audience.

Become a marquee sponsor of this event. Receive exclusivity for your brand. And, help us raise the spirits of those who are the spouses and caregivers of military personnel who have served this nation well. As a marquee sponsor, you will enjoy ads in print media of the geographical market. Electronic medium will saturate the market with the promotion of this event and invitations to the

PLAN OF OPERATION

Production plans for the presentation of this gala evening are currently in process. With that being the case, North Star Entertainments and Bace Productions are seek an immediate decision from the host twin cities of Texarkana, Arkansas and Texas. Plans for the production of a dynamic show for a dynamic evening are in place. However, many of the plans of operations are yet to be made. It is important to note that there will be no admission charge for the evening on State Line Drive. However, crowd control for the evening is very important. This is just one of the many items needing to be addressed as soon as possible.

This show is to be produced outdoors on a profession, portable stage with lighting and sound components. Over night housing arrangements must be established as soon as possible. Most importantly, public exposure must begin immediately.

To begin, public exposure should begin with a very visible press conference. This press conference with plans being made by the host city government of the "2014 ***Dancin in the streets gala".*** This conference should include representatives from all media outlets from the four states area. When the press conference takes place, national media will be requesting interviews from the local host of this event. It is important to note that the First Lady Michelle Obama and the Second Lady Dr. Jill Biden have been trying to raise the level of visibility of the plight of military spouses for quite some time. Many of these spouses will be recognized and presented gifts during the intermission of the show. Contacts must be established with the Veterans Administration out

Letter of Support for BACE Productions

On the behalf of the constituents of the 18th Congressional District of Texas, I am most proud to be of support of BACE Productions for their dynamic and popular production "*Dancin' in the Street*... Motown & More Revue." The show, presented in collaboration with One Delta Plaza Educational Center and sponsored by the Miller Theatre Advisory Board, Houston First, the Greater Southeast Management District and other corporate and community partners, has become a favorite amongst local music lovers and tourist throughout the Gulf Coast Region for over a decade.

This masterful production celebrates soul music, one of the most powerful forms of music born of the American experience. Not only was soul music the backdrop to the American Civil Rights Movement, but it continues to be the lyrical note of national and international social progress. The soul music genre allows our younger generations to engage in and embrace an important era in history in a unique and enjoyable manner. BACE Productions, through this very special production, provides the increasingly rare opportunity for family members, neighbors and strangers "from nine to ninety," to understand and enjoy each other and soul music at it's best. Year after year parents bring their children to enjoy the show, and provide them with the opportunity of seeing people of their own communities performing quality work.

Once again I share my support and many thanks to BACE Productions for their creative thought and commitment to presenting the community with such entertainment that brings us all together. The production energizes the community like no other, and instills in all who experience it, a sense of cultural, local, and national pride.

Sincerely,

Sheila Jackson Lee

X. ITEMS FOR DISCUSSION

Uninsured/Underinsured Motorists

Police Chief Dan Shiner discussed with Council the Police Department's research concerning uninsured motorists. Statistically there is likely 15% to 20% of Bowie County vehicles that are uninsured. The problem appears to be significant. While it is unlawful to be uninsured, many motorists still find ways to cancel insurance and continue to operate their vehicle without insurance coverage.

The Texarkana Police Department wrote 2,717, 2,432, and 1,301 citations for failure to show proof of insurance in 2012, 2013, and so far in 2014, respectively. After discussion, council consensus is for staff to propose a city ordinance that would permit the police department to impound vehicles upon discovery that the owner cannot provide proof of insurance.

Updates/History of Briefing:

Not Applicable

Executive Summary and Background Information:

The bid opportunity was advertised on June 29th and July 6th in the Texarkana Gazette as well as emailed to an internal list of interested bidders. The contract is for one year with four each one year renewal options. There were two bids received. Bidders were Laroy Thomas, Inc. of Texarkana, Arkansas and Krause Service Company, LLC of Nash, Texas. Low number of bid responses was likely due to need for bidders experienced in chiller operations. There are currently three chillers in operation. Many HVAC vendors do not work on chillers.

The low bidder was Krause Service Company. Krause has been the city's contractor for the past five years. They are responsive to service calls, know the city's equipment and have worked with the city staff to repair and plan within the scope of our budgets. While Laroy Thomas, Inc. could handle the city's needs, Krause is by far the low bidder. Their bid price was the same as the past five years.

Executive Summary and Background Information:

In its meeting on May 27, 2014, the Council accepted a bid and authorized the City Manager to enter into a contract for the construction of Phase IV TAMU East Approach. The contract amount was $2,325,595, with $2,060,707.35 to be paid by the City and $264,887.65 to be paid by TWU. In addition, in its meeting on July 14, 2014, the Council authorized the payment of an invoice from Southwest Electric Cooperative Corporation in the amount of $82,240.11, to pay for the relocation of overhead electric lines for the same project. Total expected City expenditures are $2,142,947.46. When the original bond fund budgets were prepared for fiscal year 2014, expenditures for this project were appropriated in three (3) bond funds and split between the fiscal year 2014 and fiscal year 2015 budgets in the years funds were expected to be expended. However, in order to issue a purchase order for the accepted contract amount, and another purchase order for the relocation of electric lines, it is necessary to amend the fiscal year 2014 budget to appropriate more available bond funds in the current year budget. Worksheets are attached showing the requested amended budget amounts for both fiscal years, and also showing the changes from the original 2014 budget and the proposed 2015 budget.

The second requested budget amendment is to add $84,077 to the budget for Planning and Community Development (Department # 2001). The Budget for Fiscal year 2013 appropriated $200,000 for demolition of condemned structures. A total of $115,923 was spent in that year, leaving an unspent balance of $84,077 that should have been rolled over to the fiscal year 2014 budget. That appropriation was inadvertently omitted in the budget approval process, so this request is brought forward to correct that omission.

Requests 3 – 11 on the attached worksheet are all related to non-general City funds, and are due to various circumstances that changed between the date the FY 2014 budget was adopted and the present date. Some are partially or completely offset by associated increases in revenue, while others require some use of fund balance in the particular fund. Explanations are provided for each requested amendment.

Potential Options:

- Approve requests to allow expenditures on a previously approved contract, and to correct a prior omission, which will allow continued demolition expenditures, and to allow needed expenditures in various non-general funds.
- Deny requests, which will limit current year expenditures to amounts originally appropriated.

Fiscal Implications:

Bond Funds as originally budgeted for the 2014 fiscal year total $1, 243, 448, which is less than the amount required to establish a purchase order for the total contract and non-contract expenditures that have been authorized for the Phase IV TAMU East Approach project. Approval of the budget amendment will allow appropriation of a total of $2,142,947.46, which covers all expected costs of this project.

No current year funds are appropriated for demolition. Approval of this request will allow demolition work to continue until an additional $84,077 is expended in the current budget cycle.

Approval of the non-general fund requests will allow for various expenditures that were not anticipated in the original budget. These requests are either covered by additional revenue, or by appropriation of fund balance in the particular fund.

Budget Amendments Requested
to Adopted Budget for FYE 09/30/2014

1) The following changes are requested to appropriate additional FY 2014 bond funds to cover the contract amount awarded for the University Avenue-Phase IV project and one non-contract expenditure not previously budgeted. Except for one line-item request discussed below, all changes involve moving proposed FY 2015 project budget amounts to FY 2014, so the budgets will cover purchase orders in FY 2014:

Budget Bond Fund	Fund #	GL #	Project	Revised 13-14	Proposed 14-15	
2003	415	57059	University Ave-Phase IV	$ 177,594	$ 500	
2005	417	57059	University Ave-Phase IV	$ 551,862	$ 1,000	
2009	420	57059	University Ave-Phase IV	$ 1,659,606	$ 3,500	*
2009	420	57071	Bringle Park North	$ 2,280,268	$ -	*

*These two budget lines include a budget line-item adjustment from Bringle Park North project (57071) to University-Phase IV (57059), in the amount of $119,732.

2) In the budget year ended 09/30/2013, the Council appropriated $200,000 for demolition. At the end of that fiscal year, actual funds spent were $115,923, leaving an appropriated balance that expired at the end of that year of $84,077. The purpose of this request is to restore the $84,077 as an additional appropriation in the fiscal year 2014 budget to provide funds for demolition projects up to the amount originally appropriated.

3) The revised budget for FY 2014 for the Court Technology Fund (114) is projected to be larger than the original budget by $542, due to computer hardware & software needs in excess of original projections. This change affects line items 53400 and 55707.

4) The revised budget for the City's Technology Fund (115) is budgeted to increase by $16,563 over the original FY 2014 budget, due to implementation of a new computer lease agreement for replacement of older computers and other older equipment in various City departments.

Attachment: Budget Amendment Request for FY 14 07.24.14.xlsx (1163 : Ord. No. 2014-096 Budget Amendment No.2)

5) In the City's CDBG Revolving Loan Fund(203), no loans were expected to be made when the original budget was adopted. Since that adoption, a project has begun in the downtown area that is qualified to receive a loan under this program. Accordingly, revenue and expenditure budgets have been amended to allow the City to provide a loan under this grant funded program. The revenue and expenditure totals are expected to be $100,000 in FY 2014.

6) In the City's EPA Job Training Grant Fund (206), no revenue or expense was expected on the date of original adoption. However, in the ensuing months the awarding agency extended the grant term and awarded additional funds. Accordingly, a budget appropriation is needed for expenditures already incurred or expected to be spent from these additional grant funds in FY 2014.

7) Both revenue and expenditures are expected to increase in the Hotel Occupancy Tax Fund (212) from the adopted budget. Revenue from adopted to revised budget for FY 2014 is projected to increase by $66,200, but the increase is expected to be more than offset by payments required under the city's management agreement for the Convention Center. Projected expenditure increase is $53,228.

8) The original FY 2014 budget did not appropriate expenditures from the City's Law Enforcement Program Fund (219). However, since adoption of the budget, the City was awarded a grant of $7,605, and the Police Department is requesting to appropriate travel expenditures in the amount of $4,300 that are qualified expenditures under this grant.

9) Additional expenditures of $129,754 are expected in the Economic Development Fund (223), due to a larger than expected incentive payment on the agreement with Harte Hanks. Although overall expenditures in this fund are not expected to increase over the original amount adopted for FY 2014, the budget for this line item(54679) needs to be increased. This increase is offset by a FY 2014 reduction in the local match required on the Downtown Enhancement Grant project, which was moved to the FY 2015 budget.

10) The Employee Benefits Fund (701/702) is projected in the Revised 2014 budget to receive $408,480 additional contributions revenue than was originally budgeted. Claims, administration and other operational costs are now expected to increase by $840,400 over the original budget, requiring a requested amendment.

11) Expenditures in the Firemen's Fund (801) are now expected to exceed the original adopted budget by $56,748, requiring an additional appropriation request. However, the increase in cost is expected to be more than offset by increased projected revenues of $511,775.00 .

2. Increase appropriations in the General Fund to restore unspent demolition funds from the City Council's original appropriation in the City's fiscal year 2013 budget which was inadvertently omitted from the original fiscal year 2014 budget.
3. Increase appropriations in the Court Technology Fund for additional computer hardware and software needs that were not anticipated in the original budget.

7. Increase appropriations in the Hotel Occupancy Tax Fund to fund larger than anticipated required payments under the City's management agreement for the Convention Center. Anticipated revenue increases are expected to partially offset the increase in expenditures.
8. Increase appropriations in the Law Enforcement Grant Program Fund, due to a new grant award received after the original budget was adopted.
9. Increase appropriations in the Economic Development Fund, due to a larger than anticipated required payment under the City's incentive agreement with Harte-Hanks, Inc.
10. Increase appropriations in the Employee Benefits Fund to fund larger claims costs and increases in other operational expenditures that will be larger than anticipated in the original budget. Anticipated revenue increases are expected to partially offset the increase in expenditures.

Briefing: 8/11/2014	**Public Hearing:**	**Second Briefing:**	**Council Vote:** 8/11/2014

Item Schedule

Updates/History of Briefing:

On August 8, 2014, city staff, with the City Secretary's approval, began the process for revalidating the signatures on the petitions received by the City Secretary's office for the proposed Local Option Election. City staff requested and received the database information for registered voters in the City of Texarkana, Texas from the Bowie County Elections Office.

On August 9, 2014, the City Secretary, along with the assistance of the City Manager, revalidated the signatures on the petitions against the database information received from Bowie County. After checking the database information and reviewing the petitions, the City Secretary decertified some signatures due to the following reasons: duplication of signatures, being unable to verify and cross reference sufficient data to validate a signature to be counted, and discovering signatures of Bowie County residents who listed addresses outside of the city limits of Texarkana, Texas.

Upon completion of this revalidation process, the City Secretary certifies Two Thousand Nine Hundred and Eighty-One (2,981) signatures of registered voters in the City of Texarkana, Texas. **(Please see attached spreadsheet document of certification.)** This number (2,981) exceeds the minimum requirement of (2,755) signatures needed as provided by state law to call this election.

Therefore, in the best interests to the citizens of Texarkana, Texas, staff has determined that our citizens are better served by having a joint election with Bowie County on Election Day - November 4, 2014 to present this issue to registered voters of Texarkana, Texas.

Executive Summary and Background Information:

The City of Texarkana, Texas received a petition request from Texas Petition Strategies on June 24, 2014 to call a local option election, in accordance with Texas Election Code Section 501.021, for registered qualified voters of Texarkana, Texas and to be placed on the November 4, 2014 ballot for the following issue: **"the legal sale of beer and wine for off-premise consumption only"** in accordance with Texas Election Code Section 501.035.

City of Texarkana, Texas

Texas Petition Strategies presented 379 petitions of signatures to the City of Texarkana, Texas on July 12, 2014. The 379 petitions of signatures were submitted to Bowie County Elections Office on July 14, 2014. Bowie County Elections Administrator, George Stegall, verified in writing on July 17, 2014, the required number of signatures needed for this issue to be placed on the November 4, 2014 ballot.

The number of signatures verified (3,077) exceeded the number of signatures needed (7,869 votes cast in the most recent Gubernatorial election x 35% = 2,755 signatures required) (3,077/2,755 = 111.6%) and exceeds the minimum requirement of state law. Therefore, in the best interests to the citizens of Texarkana, Texas, staff has determined that our citizens are better served by having a joint election with Bowie County on Election Day - November 4, 2014 to present this issue to registered voters of Texarkana, Texas.

Item Schedule

Updates/History of Briefing:

On August 8, 2014, city staff, with the City Secretary's approval, began the process for revalidating the signatures on the petitions received by the City Secretary's office for the proposed Local Option Election. City staff requested and received the database information for registered voters in the City of Texarkana, Texas from the Bowie County Elections Office.

On August 9, 2014, the City Secretary, along with the assistance of the City Manager, revalidated the signatures on the petitions against the database information received from Bowie County. After checking the database information and reviewing the petitions, the City Secretary decertified some signatures due to the following reasons: duplication of signatures, being unable to verify and cross reference sufficient data to validate a signature to be counted, and discovering signatures of Bowie County residents who listed addresses outside of the city limits of Texarkana, Texas.

Upon completion of this revalidation process, the City Secretary certifies Two Thousand Nine Hundred and Eighty-One (2,981) signatures of registered voters in the City of Texarkana, Texas. **(Please see attached spreadsheet document of certification.)** This number of signatures (2,981) exceeds the minimum requirement of 2,755 signatures needed as provided by state law to call this election.

Executive Summary and Background Information Revised:

Texas Petition Strategies submitted a request to call a Local Option Election for the issue of **"the legal sale of beer and wine for off-premise consumption only"** within the city limits of Texarkana, Texas.

Petitions of signatures of registered, qualified voters have been delivered to and verified in writing by the office of the City Secretary.

The number of signatures verified (2,981) exceeded the number of signatures needed to call al Local Option Election by petition and meets the requirements of state law.

This Ordinance has been prepared to call the Special Local Option Election, under Joint Election Agreement with Bowie County, Texas, to present to registered, qualified voters the issue noted above on the November 4, 2014 ballot.

CITY OF TEXARKANA, TEXAS
P.O. BOX 1967 TEXARKANA, TX 75504 PHONE 903.798.3900

HONORABLE MAYOR AND CITY COUNCIL:

Please find attached the draft proposed budget for the fiscal year 2014-2015. This budget has been developed with the goal of providing quality services and maintaining the quality of life for our citizens through efficient fiscal and personnel management. The budget is one of the most important working documents and planning tools utilized by the Council. It reviews past accomplishments, identifies future needs, sets objectives for the coming year and defines resources needed to achieve those objectives.

Texarkana, Texas serves as a regional retail, commercial and medical center for the Ark-La-Tex area. Because of our established businesses and new development throughout the City, our tax base and sales tax revenues continue to provide a large part of our budgeted revenues. For the 2014-2015 budget year, sales tax revenues are expected to comprise about forty seven percent (47%) of the City's revenue budget. Bowie Central Appraisal District has also provided a certified appraisal roll of $2,440,182,204, a decrease of one percent (1.00%) from last year's roll. Property taxes are estimated to comprise about thirty-three and one-half percent (33.41%) of the total General Fund revenue budget.

Revenues for 2014-2015 are budgeted to decrease by just under twelve percent (11.97%) over the amended 2013-2014 budgeted revenue numbers. The most significant decrease is a change in reporting revenue from gross collections (2013-2014) of garbage fees to gross collections net of expenditures (2014-2015) to match reporting in the budget with the City's Comprehensive Annual Financial Report (audit). Revenue projections are mixed for next year, with the budgeted increase in sales tax at just under three percent (2.84% or $412,000), while total property tax collections are budgeted to increase by two and one-half percent (2.56% or $265,164), due to a slight correction in the allocation between funds in 2015. Franchise taxes are expected to increase by just over six percent (6.3% or $103,974), total charges for services are budgeted to increase by ten and one-half percent, (10.7% or $48,784), after removing the garbage fee adjustment previously discussed. Fines and forfeitures are budgeted to decline by just under two percent (1.8% or $29,516), while grants and entitlements reported in the General Fund are expected to decrease by thirty-one percent (30.8% or $345,200), due to reclassification of federal grants awarded to the City for the 2014-2015 fiscal year from General Fund into Special Revenue Funds.

Attachment: City Managers Letter 14-15 Budget (1126 : Ordinance No. 2014-073 Budget)

Expenditures are budgeted to decrease by twelve percent (12.02%) over last year's amended budget. This decrease is also due to the change in reporting of garbage expenditures discussed above. Removing this adjustment results in a projected increase in expenditures from 2014 to 2015 of just under one and three quarters percent (1.68% or $525,299). Combined General Government Departments are expected to increase by just under one percent (0.89% or $72,322), due to the reclassification of several departments from other divisions into the General Government division. The Police Department has budgeted for an increase of two and one-half percent (2.5% or $230,750), while the Fire Department expects to spend about two and one-half percent more than last year's budget (2.41% or $140,710). Planning and Community Development Department expenditures will increase by $115,832 over last year's budget, due to the addition of $200,000 to continue the City's demolition program. Operating expenditures, other than demolition, are budgeted to remain almost the same as last year, decreasing by one-half of one percent (0.05% or $181). Parks and Recreation Department expenditures are expected to increase by one and three quarters percent (1.77% or $32,991) in the upcoming budget.

Since around sixty-five per cent (65.26%) of the City's General Fund budget is devoted to personnel expenditures, the majority of our proposed increases are centered in personnel related areas. The cost of health care continues to rise, while retirement expenditures are expected to remain at about the same level as last year. Holding the increase in our budget to less than two percent (1.68%) requires funding of some departments at less than full employment. Some authorized positions continue to remain frozen, and all departments are required to closely monitor and manage vacancies during the budget year to maintain a lean operating budget.

The City's ad valorem tax rate for 2015 is proposed to remain at 66.9293 cents per $100 of taxable value. This rate is lower than the effective tax rate of 66.9446 cents per $100 of taxable value, and also lower than the rollback rate of 94.5998 cents per $100 of taxable value.

Ending General Fund balance is projected to be thirty-five percent (35%) of budgeted expenditures, and the Interest and Sinking Fund utilized for debt service retains a sufficient reserve to meet debt service requirements in the coming year.

Personnel

The City's contributions to the Texas Municipal Retirement System (TMRS) plans will be less next year than the current rates. Our plans require a seven percent (7%) employee contribution, with the City matching up to 2 to 1, based on an annual actuarial study. The General Fund contribution will decrease from 15.73% to 15.70%, while the Police Plan will decrease from 18.16% to 17.38% and the City's contribution to the Water Utility retirement fund will decrease from 17.70% to 16.71%. Contributions to the Firemen's Retirement Fund will remain

Attachment: City Managers Letter 14-15 Budget (1126 : Ordinance No. 2014-073 Budget)

at last year's levels, with the City's contribution at 19.5%, while the firemen will contribute 13.5%.

The balance in the City's health insurance fund has decreased by just under four percent (3.8% or $58,620), in the past year, while the 2015 budget projects a stable year, as the city continues to work with an independent consultant on future planning and implementation of the City's self-funded insurance plans. Studies are currently in process that will help us continue to provide this important employee benefit as efficiently and effectively as possible in the years to come.

Other Items of Note in this Budget are:

1) The City's Capital Replacement Fund is fully established, and continues to be successful in updating a fleet that was well beyond useful life in most cases. Funding for 2015 is proposed at $1,000,000, and the balance in this fund is expected to end next year at around $625,051.
2) The City's Technology Fund will fund approximately $189,500 of the City's computer hardware and software needs in this budget year. Computers and related system tools have been placed on a replacement schedule that reflects average useful life and insures continual updating of computer equipment for maximum performance. New software purchased includes web-site design and maintenance, City council meeting organization and grants management applications.
3) Economic development continues to be an important part of planning for the future of Texarkana, Texas. A portion of utility franchise fees collected by the City continues to be directed to economic development activities, including contracting with an economic development director who is actively seeking and responding to inquiries about locating businesses in the Texarkana area. Incentive agreements in place have brought new jobs to the City, and the expected fund balance of around $1,050,000 is available for future economic development projects and incentive programs.
4) Hotel occupancy tax revenues continue to provide resources that can be used to fund programs and projects that will increase local tourism and hotel occupancy. Construction has been completed on the City's convention center, which opened as scheduled in the fall of 2012. The debt service for the funding of this project is being paid from hotel occupancy tax revenues set aside by the City Council several years ago, and the operation of the center is managed through a public/private partnership funded by hotel occupancy taxes collected from the privately-owned Hilton Garden Inn that has been constructed next to the convention center. Revenue increases are expected to be modest looking forward, and a one-time transfer from the General Fund of $85,000 is proposed to allow contributions to sub-recipients to remain the same for 2015. However, current revenue levels will not allow the same contributions

Attachment: City Managers Letter 14-15 Budget (1126 : Ordinance No. 2014-073 Budget)

going forward as have been made in past years. The projected fund balance at the end of 2015 is zero.

5) Property tax revenues are being collected by the City's first Tax Increment Reinvestment Zone (TIRZ), and several potential projects are in the planning stages. The first TIRZ District related bonds have been sold, with debt service on the issue expected to be funded by collections of property taxes from property owners within the District. Fund balance is projected at $361,400 for 2015.

Capital Improvement Projects

Funds received from past bond issues continue to be expended on infrastructure needs in the City. Projects currently in the construction phase include park construction in the Bringle Lake area around the Texas A&M-Texarkana campus, construction on Morris Lane-Phase 2 from Cowhorn Creek to Richmond Road (which is expected to be completed by the end of fiscal year 2014), construction on the University Avenue-Phase 4 project is ongoing, while planning and design work on the proposed linear park near the new convention center is continuing with construction expected to begin during fiscal year 2015, and construction will begin shortly on the TXDoT Downtown Enhancement STEP Grant project.

Priority Programs

The city staff in concert with MuniCode Corporation is reviewing and revising the city code of ordinances which has not had a cover-to-cover review and rewrite since 1961. The current review will bring the code into compliance with changes in state law and remove items that do not apply to the city's residents, businesses, and land owners. All references to associated fees throughout the code are being rewritten with the fee amounts removed and referencing the city's master fee list for the associated amounts.

Demolition of burned-out and/or dilapidated residential structures throughout the city is important. These structures tend to harbor rodents and invite criminal activity besides being an attractive nuisance. The city-wide inventory of these structures is quite large and represents a significant hurdle for the city to improve its appearance for economic development purposes and improving individual and neighborhood quality of life. Staff is shifting from a contractor based effort to an in-house effort to frontline the city's demolition efforts. The goal is to publish and maintain an active inventory of all candidate structures. The internet accessible inventory will display the current status of each structure including a planned demolition date. The limiting significant factor will be funding, manpower, and equipment. While the 2015 proposed budget includes $200,000 to fund this effort there is no additional staffing to accomplish the work. The Public Works Director is the lead staff for this effort and he will be using existing staff through priority work assignments accomplish this mission along with all the public maintenance to be performed throughout the city.

Attachment: City Managers Letter 14-15 Budget (1126 : Ordinance No. 2014-073 Budget)

Of significant importance at this time there is no funding for programming to address demolition of non-residential structures. Once the residential structure demolition effort is well under way the staff will start to review non-residential demolition.

Public maintenance of private property, that is, the "Mowing of Weed Lots" is a significant drain on public resources. Staff is in the process of centralizing all mowing operations into one department. The Public Works Director has been tasked to determine the most economical mix of contractor performed and in-house performed mowing throughout the city. Staff will be exploring ideas to wean property owners from relying on the city to maintain their private property.

Summary

City staff continues to work diligently to provide the City with an efficient and effective internal operation. We are consistently working on providing an elevated level of customer service to our citizens, and we continue to work on the first phase of a long-term capital plan for the City.

Respectfully submitted,

John A. Whitson, ICMA-CM
City Manager

Briefing Sheet

Update Date: 8/15/2014 9:55 AM

Lead Department: Public Works **Action Officer:** Debbie Burk,

Subject: Ordinance No. 2014-082 rezoning Lot 1 and west part of Lot 2, Block 7, Western Hills 2nd Addition, located at 22 Meadow Lane. Single Family-2 to Office. Jim and Rhonda Richey, owners. Shaun Dierksen, agent. (Due to Planning and Zoning Commission denial, a 3/4 vote by the City Council is required to approve this request).

Briefing: 8/11/2014	**Public Hearing:** 7/14/2014	**Second Briefing:** July 28, 2014	**Council Vote:** 8/11/2014

Item Schedule

Schedule 1: Brief twice - vote once (six weeks)

Updates/History of Briefing:

At the Public Hearing on July 14th a citizen, Ronnie Womack spoke in opposition to this proposed rezoning. He is a resident of this neighborhood and stated that a change to business use would not be good for this area. He and other neighbors want this to stay residential.

Additional email was sent in opposition to the rezoning by Sharon Womack.

Mr. Dierksen, applicant, spoke asking for rezoning. He stated he had applied for a driveway permit from Chris Jeans with TXDOT. He also stated that only his corporate staff would be using this office and that the house and roof needed major repairs that he is willing to fix.

Executive Summary and Background Information:

Z-14-6: This is a request by Jim and Rhonda Richey, owners, and Shaun Dierksen, Dierksen Hospice, agent, to rezone Lot 1 and the west part of Lot 2, Block 7, Western Hills 2nd Addition, located at 22 Meadow Lane from Single Family-2 to Office. The proposed use of the property is an office building for Dierksen Hospice. The current use is a single family residence. The applicant has indicated that there is adequate room for office parking at this location.

The adjacent zoning is SF-2 to the east and south, and General Retail across Summerhill Road to the west. The adjacent land use is I-30 right-of-way/Mall Drive to the north, residences to the south and east and a Shell Convenience Store to the west.

Should this request be approved, a screening device will be required along the east property line. Staff would also suggest that additional stipulations to extra paved parking and commercial code upgrades be made as stipulations of the ordinance if the request is approved.

The Comprehensive Plan has designated this as a low density residential area.

All notification and application requirements have been met to consider this request.

Potential Options:

1. Approve or deny Ordinance No. 2014-082 allowing Office zoning at 22 Meadow Lane.
2. If this request is approved, staff would recommend a Planned Development (PD) designation

be placed on the property with the following stipulations:

- The existing structure must be remodeled and upgraded to commercial codes for any business use including any required parking.
- A 7' screening device is required along the east property line.
- The following uses are prohibited: any non-single family residential use (i.e. duplexes, triplexes, townhouses, apartments), fraternity or sorority houses, hotel or motel, emergency health care or medical clinic, financial institution (title or cash store), day care facility.

Fiscal Implications:

None

Staff Recommendation:

This existing residence has its driveway access fronting on Meadow Lane which is the entry street to a large residential neighborhood located to the east of Summerhill Road. No additional driveway access would be granted to the property from Summerhill Road. Therefore, all traffic associated with this business would be on Meadow Lane. Staff has concerns that an increase in traffic would result from this office use and bring business traffic into a quiet residential area. Approval of this request to Office zoning could set a precedent for similar office requests that could lead to the decline of this strong residential neighborhood. Staff recommends for denial of this request.

Advisory Board/Committee Review:

Planning and Zoning Commission

Board/Committee Recommendation:

The Planning and Zoning Commission unanimously recommended for denial of this request. Therefore,
a ¾ vote by the City Council is required to approve this request. The reason for denial is to maintain the existing single family residential neighborhood and follow the city land use comprehensive plan. In addition, rezoning to Office would set a precedent for similar requests in this residential area.

At the Planning and Zoning meeting, the applicant provided an email letter from residents in favor of allowing his office for Dierksen Hospice at this location. See attached copy.

Staff reported that several calls and emails had been received in opposition to this request. See attached copies.

Advisory Board/Committee Meeting Date and Minutes:

Z-14-6: Lot 1 and west part of Lot 2, Block 7, Western Hills 2nd Addition, located at 22 Meadow Lane. Single Family-2 to Office. Jim and Rhonda Richey, owners. Shaun Dierkson, agent.
Mr. Shaun Dierksen explained that he is requesting rezoning to allow the location of the

corporate office for Dierksen Hospice at this location at 22 Meadow Lane. Mr. Dierksen stated that a group home is currently located next door to this property to the east. He stated that he has talked with neighbors in the area and presented an email to the Commission from Ms. Mary Lou Thornton. Ms. Thornton states in the email that she had talked with several property owners about this proposed use and they were not opposed to the request. Those owners listed in the email were Royce and Mary Lou Thornton, Jim and Peggy Whiteside, Tim and Tammie Wann and Mrs. Martin Wacha. The email stated that they would not be opposed to the request if Mr. Dierksen would follow his design plan and add upgraded landscaping, construct an attractive privacy fence and direct the comings and goings of staff from Summerhill Road or Mall Drive.

Ms. Jaster stated that there was not access to this property from Mall Drive. She stated access would be from Meadow Lane off Summerhill Road. She added that no additional curb cut for a driveway would be granted off of Summerhill Road. She stated that staff had concerns about the increase in traffic into this quiet residential area. She stated that staff is also concerned that approving this request would set a precedent for similar requests. Ms. Jaster added that staff had received several calls in opposition to this request. She stated that the main concern was the increase in traffic.

Mr. Dierksen spoke in rebuttal. He stated that he only has five employees and one meeting a week on average. He stated that he plans to have the employees park on the north side of the property.

After discussion, Mr. Meisenheimer made a motion to deny the request. Mr. Coleman seconded the motion. Members voted unanimously for approval of the motion.

A Mr. J.B. Elder called about the zoning case. Said he had no objection to an office at the location but was concerned about increased traffic. Cited the many cars that are already at the group home. Said it is hard getting onto Summerhill Road at this intersection. Will make copy of this for file.

Royce and I talked at length after you and your wife left. We have since spoken to Mrs. Zacha, Jim and Peggy Whiteside, and Tim and Tammie Wann.

I realized Royce's quietness while you were here as his being in thought about the options. We now consider that if you follow through with your designs to make the landscaping better, put up an effective and attractive privacy fence, and direct the comings and goings of your staff from the Summerhill Rd. or Mall Drive Rd. behind the house, this might be a better scenario than our concern over what type of people might buy the house if it remains on the market.

Therefore, we are not going to contest the rezoning. Mrs. Zacha will follow our decision. I gave your number to both the Wann's and the Whiteside's so they can contact you if they have further questions. I trust it was ok for me to share your contact information.

Item Schedule

Updates/History of Briefing:

Subsequent to the first briefing and since charter amendments can only be presented to the voters every two years staff feels that it would be appropriate for the voters to consider amending the terms of office of the Mayor and Councilmembers. Four-year terms are generally considered important for a number of reasons:

- Permit newly elected officials more time to execute the duties of their office after they have completed a training period
- Permit more time for governing versus campaigning
- Reduce the number of city elections resulting in reduced elections costs
- Annual elections absorb significant staff time, for the supporting staff the election is not just one day but a number of weeks completing all preparation for an election and then post-election reporting

If the voters approve changing the terms of office from two years to four years a transition plan is also included in the amendment. The transition will be accomplished by conducting the next city election as scheduled but the offices up for election will be for four-year terms. Thus councilmembers for wards 2, 3, and 5 would be elected for four-year terms ending in 2019. The Mayor and councilmembers for wards 1, 4, and 6 current terms will be extended for one year and these races open for voting in 2017 versus in 2016.

Also, during the continued review of the charter it was discovered that there is flaw in the current charter pertaining to the filling of vacancies on the city council, specifically in the provisions related to the existence of multiple vacancies. The current provision permits the city council to appoint replacements but should there be two or more vacancies, neither of which is the mayor, the city council cannot achieve the charter mandated quorum. Being unable to achieve a quorum the city council could not therefore appoint replacements. Staff has prepared an amendment for voter consideration that will address the matter in a way that the city council could legally meet and appoint replacements.

Executive Summary and Background Information:

The Texarkana City Charter is very dated, having been adopted in 1960. Many provisions of the charter are outdated by generally accepted municipal management practices, specific state laws, or other agency regulations and guidelines. The Texas Local Government Code permits the city council upon its own motion to submit amendments to the qualified voters of the city (see Local Government

Code. Title 2, Subtitle A, Chapter 9, Section 9.004). For the upcoming election that will be conducted on November 4, 2014 four charter amendments are proposed. None of the amendments, if approved by the voters, will have a fiscal impact on the city's annual operating budget.

Amendment 1: Redefines the meetings of the city council making each meeting a regular, special, or an emergency meeting. The amendment also defines who may call a special meeting or an emergency meeting. The amendment also removes public notice details since public notice details are established by the Texas Open Meetings Law. Further, the amendment designates that all meetings of the city council, city boards, and commissions are public meetings.

Amendment 2: Removes from the charter a list of departments that were created by the original charter and replaces the language with a more general authority wherein the city can create, abolish, and combine departments as needed.

Amendment 3: Rewrites Article VIII in its entirety. The rewrite removes numerous instructions related to how the annual budget will be developed and presented. Many of the details in the charter may have been important in 1960 but in today's environment of state, federal, and other regulatory agencies standards and requirements these detailed instructions have been superseded. The amendment also simplifies the process for approving budget amendments by a vote of the city council in the same manner as required to approve the budget. The amendment also removes the requirement that the budget is to be adopted 30 days prior to the end of the current fiscal year.

Amendment 4: Simplifies Article X, Section 2 where the city council has authority to appoint a city attorney and defines some of the city attorney's responsibilities. When the charter was first written and adopted it was contemplated that the city attorney would be a staff member. It is a common practice for local governments to contract for a city attorney. The rewrite provides for the city council to appoint a city attorney and that the city attorney shall serve at the pleasure of the city council and removing all other stated duties and authorities of the city attorney.

See the attachment "Compare Proposed and Current Charter Amendments" for a more detailed review.

Potential Options:

- Approve the proposed ordinance as presented
- Revise and approve the ordinance
- Disapprove the proposed ordinance

Fiscal Implications:

There will be a cost to publish the entirety of the proposed charter amendment in the newspaper on two occasions to meet statutory requirements. The county will already be conducting a local option election for the city and adding these questions to the ballot will not significantly increase the city's cost of the election.

Adopt the ordinance as presented.

Executive Summary and Background Information:

After adoption of the budget the City Council is required to adopt a tax rate that is sufficient to fund that budget for the next fiscal year. The rate that is proposed to be adopted is $.669293 cents on each $100 of assessed value of property in the City. This is the same rate as last year, and is lower than the calculated effective tax rate of $.669446 cents/$100, and also less than the calculated rollback rate of $.945998/$100.

Potential Options:

- Adopt the proposed tax rate, which will fund the proposed budget for fiscal year 2015.
- Do not adopt the proposed tax rate, which causes a rollback to last year's rate (same rate).

Fiscal Implications:

Adoption of this tax rate provides adequate funding for the fiscal year 2015 budget.

POTENTIAL BORROWER:	Pecan Point Brewing Co John Hubbard & Bill Scurlock
Objective:	Improvements to Main Street property
Loan Request	$100,000
Loan Approval:	Not to exceed $100,000 for 10 years @ an interest rate of not less than 1% over the rate of the 10-year Treasury notes, adjusted annually
Sources of funds:	CDBG

Type of Project:	Improvements to commercial property that has been vacant for several years.

Narrative: This loan will be used for improvements to property on Main Street in downtown Texarkana that has served a variety of purposes. The subject property adjoins the Perot Theatre, a City-owned structure.

The location is within the target area for the CDBG RLF. The borrower's financial statements indicate an ability to repay the loan and the building will be used as security.

This is a new venture and it has no financial history.

Governmental and non-profit revolving loan fund programs have two broad responsibilities. The first is to meet some pre-established programmatic criteria. The

program goals can be driven by geography, local economies, targeted demographic groups, entrepreneurial activities, or other policy positions.
The second responsibility is credit worthiness of the loan. Revolving loan programs can be sustainable only with the repayment of loans. The programmatic criteria may influence credit standards. There should be a balance between program goals and credit worthiness in the decision-making process.
For these loans for the CDBG Revolving Loan Fund, the pre-approval committee found:

- The applicants meet program criteria established for the CDBG RLF.
- The businesses are within the geographic or demographic target areas.
- The applicants have the capability of meeting employment objectives.
- The applicants have a demonstrated capacity for repayment.
- The applicants have adequate net worth or available collateral to support sound lending practices.

For establishment of the CDBG RLF:

- Legal ad and public posting of information meeting on the loan program (see attached)
- RLF discussed in two public hearings on 2011 CDBG Action Plan July 26 2011 and August 8, 2011.

Subject: Ordinance No. 2014-089 amending PD-03-09 for site plan approval to allow an accessory building for the existing Goodwill Industries on a 2.30 acre tract of land being a part of the Adolphus Hope HRS, A-261, located behind 3410 St. Michael Drive. Goodwill Industries of Northeast Texas, applicant. David Williams, MTG Engineering, agent.

Briefing: 8/11/2014	**Public Hearing:** 8/11/2014	**Second Briefing:** August 25, 2014	**Council Vote:** 9/8/2014

Item Schedule

Schedule 1: Brief twice - vote once (six weeks)

Updates/History of Briefing:

Executive Summary and Background Information:

This is a request by Goodwill Industries of Northeast Texas, Inc., owner, and David Williams, MTG Engineers, agent, for site plan approval to allow the construction of a new accessory warehousing building to be utilized by the existing Goodwill Industries at 3410 St. Michael Drive (a 2.30 acre tract of land being a part of the Adolphus Hope HRS, A-261). The present use is a vacant tract of land.

The adjacent zoning is Single Family-2 to the north and east, PD-General Retail to the south and General Retail to the west. The existing land use is residences to the north and east, the existing Goodwill store to the south and Sam's Club and Super One Grocery Store to the west.

This property was rezoned to Planned Development-General Retail in 2003. The PD designation was placed on the property to protect the adjacent residential neighborhood.

The applicant has provided a site plan which shows the following:

- A 15,000 square foot metal exterior warehouse accessory building with 4 loading docks and overhead doors for loading and unloading. Heavy load pavement is shown for truck access. A sprinkler system for the building will be required.
- Building is proposed 10 feet from residential property line on the east side.
- All traffic from trucks will be on the west side of the building next to Sam's and away from the residential neighborhood on the east.
- No new signage is proposed.
- Additional parking is required for the proposed warehouse. Calculations to see if the existing parking will accommodate has not been verified.
- Continuation of the 7' wooden fence along the east side will be required to screen this warehouse from the residential neighborhood. (some fence exists but it may need to be extended).

The Commission may want to add stipulations that any outdoor lighting must be shielded from adjacent residential properties and if additional fencing/screening should be constructed along the residential properties past the expanded warehouse on the east and north property lines.

Potential Options:

None

Fiscal Implications:

None

Staff Recommendation:

Staff recommends for approval of the site plan, with stipulations, of the proposed metal accessory warehouse since it will be located behind the existing Goodwill building and will not be seen from St. Michael Drive. All notification and application requirements have been met to consider this request.

Advisory Board/Committee Review:

Board/Committee Recommendation:

The Planning and Zoning Commission unanimously recommended for approval of the site plan with the following stipulations:

1. A 15,000 square foot metal exterior warehouse accessory building is allowed with 4 loading docks and overhead doors for loading and unloading as shown on site plan. Heavy load pavement is shown for truck access.
2. A sprinkler system for the building is required.
3. Any outdoor lighting must be shielded from adjacent residential properties.
4. A screening device is required along the east and north property lines where property abuts residential properties.
5. All traffic from trucks will enter and exit from the west side of the building next to Sam's and away from the residential neighborhood on the east.
6. No new signage is proposed.
7. Additional parking is required for the proposed warehouse.

Subject: Site Plan for Goodwill Warehouse

Shirley,

I have reviewed the site plan and had a couple of comments.

1. The number of truck loading docks exceeds the minimum requirements.
2. This building shows to be 15,000 SF, so there should be 15 parking spaces with it. The existing store may have enough spaces to accommodate the new warehouse but I'm not sure. There are no new spaces shown to be added with this new warehouse.

Please let me know if you have any questions.

Updates/History of Briefing:

Executive Summary and Background Information:

This is a request by Barrie Thomson, owner, and Jason Clanton with Curt Green Co. and Jeff Whitten, Whitten Engineering, agents, to rezone Lot 1, Block 1, Walsh-Carter Master Tract Second Addition, located at 5002 North Cowhorn Creek Road from Agriculture to Planned Development-General Retail. The proposed use of the property is a quick serve restaurant (Steak n Shake). The present use is a vacant tract of land.

The adjacent zoning is Agriculture to the north, PD-General Retail and Agriculture to the west, PD-General Retail to the south and PD-Commercial to the east. The adjacent land use is vacant property to the north, Red Lobster Restaurant to the south, a hotel and vacant property to the west and a hotel to the east.

The Comprehensive Plan has designated this as a Retail area.

The applicant has requested rezoning to General Retail with the Planned Development designation and has provided a site plan of the proposed new restaurant. Therefore, site plan approval will be considered as a separate zoning item (See Amendment to PD-14-1).

Most of the businesses (restaurants, hotels/motels) in this area have been rezoned with the Planned Development designation. This use is consistent with others in this area and the comprehensive plan. Staff recommends for approval of this request to PD-General Retail.

Updates/History of Briefing:

At the August 11, 2014 council meeting, Paul Peters spoke at the Public Hearing on this agenda item and gave the Council a handout entitled: Request for Water Treatment Chemical (Aluminum Sulfate) Re-Bid. This document has been attached to this item.

Executive Summary and Background Information:

Bids were advertised and thirteen chemicals specification packages were mailed to perspective bidders in June. Bids were received and opened at 2:00 PM, July 8, 2014, on the following chemicals required for water and wastewater treatment for FY 2014-2015: Anhydrous Ammonia, Hydrated Lime and Aluminum Sulfate for water treatment. Sulphur Dioxide, HTH (100# containers) and Liquid Caustic Soda (drums) for wastewater treatment. Liquid Caustic Soda (bulk) and Liquid Chlorine for water and wastewater treatment. Prices fell moderately on four of the chemicals used in highest quantity for Texarkana's water and wastewater treatment, specifically Sulphur Dioxide, Aluminum Sulfate, Caustic Soda and Liquid Chlorine which will result is a decrease in unit cost/thousand gallons treated in water and wastewater. See Exhibit "A" for a comparison of current chemical costs and bids for FY 2014-2015 chemical costs.

- Request was declined, and told new bid would be coming out.
- We got notice that bid had opened on July 8 – two weeks one day time span from Plant visit.
- No indication or notice bid was out, and no bid received.
- When questioned, Paula Jeans, Purchasing Agent, said bid was sent to PO Box in Dallas.
- To this day, bid still not received...regular mail usually forwarded from drop box.
- July 8th, Robert talked to Paula Jeans about not receiving the bid. Said she would review with Managers since they only received one bid for Alum and other chemicals.
- Email and re-bid request sent to Paula Jeans/Purchasing on July 8th
- No response to email. Robert spoke with Paula on July 14th and she advised they would not re-bid. She was asked at least twice to respond to our letter to officially decline our request, which was never done.

Speaking Points

- Timeline/Explanation of events
- Current competitive market below current bid price of $229 per dry ton.
- Expected savings from Chemtrade on new bid offer of over $110k.
- Chemtrade recently won bid at Paris, TX at $181, and that is further away and has more freight than Texarkana.
- Texarkana is 2000 dry tons volume, where Paris is 1000 dry tons.

RE: Bid - Water Treatment Plant Chemicals
Aluminum Sulfate

Dear Ms. Jeans,

As the incumbent bidder for Aluminum Sulfate, we have appreciated your business in the past and have looked forward to continuing to do business with you going forward.

It has come to my attention that the bid for Water Treatment Chemicals was due and opened on July 8, 2014. Chemtrade Solutions (formerly General Chemical) had all intentions of participating in this bid process and maintaining this business. Our Account Manager, Robert Naranjo, even visited the Water Treatment Plant on June 23, 2014, and met with Mr. Barton in regards to this bid. However, we never received the bid to be able to participate, and only heard through others that the bid even opened on July 8th. We had no idea or notification the Utility had issued the bid and were soliciting bid responses.

After Mr Naranjo checked into this situation, it was discovered that the bid packet was mailed by Texarkana Water Utilities to our attention at a PO Box in Dallas, TX. This PO Box is only for receipt of payments, by a bank, and no normal correspondence ever goes to this address. Since we have done business with Texarkana Water Utilities for so many years, we are unsure as to how this may have occurred, but it did nonetheless.

I would like to formally request a re-bid of the Water Chemicals, or more specifically the Aluminum Sulfate Liquid. We would like a fair opportunity to be able to offer pricing and participate in the bidding process. I also believe that with the state current market, should we be able to submit a bid that we would be favorable to Texarkana Water Utility by more than $110,000/yr over the current price.

Mayor Bob Bruggeman
City of Texarkana, TX
C/O Texarkana Utilities

RE: Texarkana Chemical Bid

Dear Mayor Bruggeman,

Chemtrade Solutions, formerly General Chemical, has been a supplier of Water Treatment Chemicals to the City of Texarkana for many years. In fact we are the current supplier of Aluminum Sulfate Liquid. With the issue at hand, we contacted Councilwoman Ray, and she advised us to send this to your attention.

Recently, the new bid was sent out for chemical supply to the Water treatment Plant. Unfortunately, whoever sent the bid information packets out sent it to the incorrect address. The address where the packet was sent is strictly a bank processing center for payments. We have never had issues in receiving correspondence in the past, but this time it was obviously an issue. Long story made short, we never received notification of the bid, or were provided with an opportunity to submit pricing and participate. We didn't even know the bid was out until we heard through a third party that bids had been opened.

Per the below attached email and attached letter, I sent notification to Ms. Jeans and Mr. Barton that we were requesting a re-bid of the Aluminum Sulfate Liquid so that we would have an opportunity to participate and continue our long standing business with the City. To this date, I still have not received any acknowledgement of the letter, or any correspondence agreeing to or denying the request for a re-bid. Our Sales Account Manager, Robert Naranjo, did speak with Ms. Jeans and she advised there would not be a re-bid.

It is our understanding that there was only one bid received for Aluminum Sulfate Liquid. Without a doubt we would have submitted competitive pricing as well, had we received the bid and been afforded the opportunity to do so. In the spirit of a true competitive bid, we would like to ask for your assistance, along with the City Council, in considering our request for a re-bid of this chemical. Given the nature of what happened, and the fact that Texarkana Utilities is a large long standing customer of ours, we feel slighted in not even being able to participate. Not t mention the financial impact of such a loss. We also believe that we would have offered pricing for the current bid that would have offered substantial financial savings and benefit to the City and the Utility, which I'm sure is of interest to you and the other City leaders.

Attachment: Reso. 2014-094 RE-BID Request 081114 Attachment (1160 : Resolution 2014-94 Chemicals for Water and Wastewater Treatment)

We would appreciate the consideration of this, or even hearing on this matter, and would like the opportunity to be able to attend and be a part of the hearing when a decision is made. We will be more than happy to present our argument to you and the Council, as well.

Thank you for your time, looking into this situation, and your consideration of our request for a re-bid. All we are asking for the opportunity to continue to provide quality product to the City and Utility, and to be able to offering competitive pricing like anyone else. I look forward to your response and hearing from you soon.

Executive Summary and Background Information:

Texas Law requires that people who drive in Texas pay for the crashes they may cause by maintaining financial responsibility for the vehicles they operate. Most drivers fulfill that requirement by purchasing liability insurance. Recent statistics show that over fourteen percent of the vehicles registered in Bowie County are not properly insured. The Police Department in recent years has averaged issuing seven citations per day to uninsured drivers. Uninsured motorists who are at fault in motor vehicle crashes cause undue financial hardship on law abiding citizens. This hardship is felt even more by those lower income families who may have their only means of transportation disabled by another driver who failed to acquire the mandated insurance. Impounding the vehicles of drivers who have been stopped for other violations will help reduce the threat of a law abiding citizen becoming the victim of an uninsured driver. Ordinances of this type have been used in other Texas cities over the last few years and have had a positive impact on the motoring public.

Potential Options:

- "None"
-

Fiscal Implications:

Towing uninsured vehicles will create an additional demand on Police Department resources, but it is believed the benefit to our citizens will be worth it. The additional workload is not expected to create any significant fiscal implications.

Staff Recommendation:

The Police Department recommends approval of the Ordinance to allow the impoundment of uninsured vehicles.

Executive Summary and Background Information:

With the recodification of the Code of Ordinances, the staff has been tasked to provide the fees and permit amounts to be included in a Master Fee List that can be placed on the City's website. This will remove all fees and permit amounts from our Code of Ordinances in order to better service the public. This will allow the public to go to the city website to find this information and remove it from our Code of Ordinances. Changing things in our Code of Ordinances is arduous and expensive. As a part of this process, the staff has included increases that reflect administrative and economic costs for current working situations, as well as, the cost of doing business in today's economy. These increases have been compared to other similar city fees and permits for a bench mark.

Tree Ordinance	Miller	24-Jul-14	11-Aug-14	Does the city have a tree ordiance related to new development?		
Enforcement of/or Demolition of Red Tagged/Burned Out Buildings	Miller	28-Jan-14	25-Aug-14	The number of red tagged or burned out buildings is not acceptable and the city council should discuss its interest in appropriate enforcement of city ordinances to either bring the buildings up to usable standards or causing owner removal of the structures. Any such buildings that have historical designations might should be restored to their historical appearance and/or use. Of particular interest are the structures known as (1) Pine Street School, (2) McCarthy Hotel, (3) Grimm Hotel, and (4) residential structures such as the one on 40th Street. **(10 FEB 14)** CM Miller lead the council discussion. Councilmembers generally expressed concern about the city's inventory of burned-out and/or delapidated structures. There appears to be two huge problems in that there are commercial type buildings and residential type structures. Clearly the cost to remove or upfit a large commercial type building will be significant. These many structures represent risks to the community's health, safety, and welfare. There is concern that someone will get hurt while traspassing on these properties. Councilmembers stated that they are prepared to stand behind the ordinance regardless of property ownership. Current enforcement procedures were discussed with the council. Council consensus is that staff is to work this situation extensively. Mr. Whitson reported that the staff will finish some of the other previous discussion items and then will move onto this particular item. **(15 JUL 14)** Reassigned to Public Works Director Dooley. Appointments to Boards and Commissions	Matthews	12-Dec-13	8-Sep-14	The manner that citizens are appointed by the City Council to committees, boards, and commissions appear to lack a high level of transparency. **(14 OCT 13)** CM Miller lead the discussion concerning the manner in which citizens are appointed to the various boards, commissions, and committees. He stated that he had discussed the matter with the City Manager and asked that Mr. Whitson share with the city council his experience and thoughts and the matter. Mr. Whitson reported that he has worked in a system that included advertising or noticing the public that certain positions would open for appointment and that citizens interested in serving should provide an application of interest. The process certainly could be automated such that applicants would provide information uniformly and for those citizens who did not apply via the internet could email and application or appear in person wherein a staff person would create the on-line application for the interested party. When it comes times for the city council to appoint the staff could prepare a briefing item permitting a high level of transparency to the public. The City Council, by consensus, directed staff to work toward developing a briefing item for consideration aimed toward improving the transparency of the process. **(27 JAN 14)** Mr. Whitson reported that he and the city secretary have researched creation documents for city commissions, boards, and committees and continue to research similar documents for outside agencies where the city appoints members to their governoring boards. As a first step the staff has redesigned the Excel file used to track membership. The new design will quickly identify any appointment that will expire within 90 days and also further identify by color code any appointments that have expired. The 90-day notice will permit the city secretary to advertise pending vacancies thus seek applications from interested citizens who want to be considered for appointment. Mr. Whitson stated that he is drafting a policy for council consideration that will be intended to improve the transparency of the appointment process. he expects to have a briefing item ready in March, 2014. TEXARKANA, TEXAS CITY COUNCIL DISCUSSION TOPICS SCHEDULE

Topic	Sponsor	Date Added	Scheduled Discussion	Discussion Notes	Disposition	Staff Lead
Animal Shelter	Bruggeman	8-Jul-13	26-Aug-13	Currently Texarkana, Texas Animal Control uses the Texarkana, Arkansas Animal Shelter to house animals that cannot be immediately placed with good homes. The use of the Arkansas shelter is on a fee basis. A number of Texas residents have expressed concern with the euthanasia policies of the Arkansas shelter and feel that it is time for Texas to operate its own shelter with policies that meet the desires of Texas residents. **(26 AUG 13)** City Council and staff discussion was led by Council Member Veal-Gooch. In general the staff feels that the current annual cost of in-putting animals at the Texarkana, Arkansas shelter now represents an amount that might support the annual debt service costs of financing related to capital funding of a Texas-side facility. Some residents have registered concern that the Arkansas facility cannot continue to accommodate Texas-side animal shelter requirements, especially if the city council adopts a "no-kill" animal control/shelter policy. Council and staff agreed that staff will continue its research on the matter and develop a project plan for the city council to consider for adoption. The plan is expected to identify the key project development milestones which will extend over a number years from research to ribbon cutting. **(28 OCT 13)** Craig Lindholm reported that the initial research indicates that the annual costs associated with using the Arkansas shelter represents sufficient funding to pay the debt service related to financing the construction of a Texas shelter. Also the staff has researched a number of shelters state-wide seeking a shelter supporting a no-kill policy. Considering the holidays and other activities Mr. Lindholm estimates that a briefing would be coming forward early next calendar year. **(27 JAN 14)** Mr. Lindholm reported that the staff continues to evalute the cost associated with using the Texarkana, Arkansas animal shelter and that the annual costs appear to be escilating. There has been no discussion concerning renewing or updating the current contract between Texarkana, Texas and Texarkana, Arkansas. Staff continues to review plans and designs of recently constructed or soon to be constructed animal shelters in Texas. There is an option, should the city council desire, to have some design firms make presentations to the city council.	Staffing	Lindholm
